Mr. Healy,

Thank you for the reply. Attached is a corrected letter, my apologies for the wrong values.

- Regarding production numbers; we experienced a computer change in 2012 so only approximate completions were available for 2010, 2011, and 2012.
- The company is a single member, single individual company with no affiliations to other truck or Glider Kit productions.

Regards,

Jerry Hoover

On Thu, Jun 15, 2017 at 4:18 PM, Healy, Stephen <healy.stephen@epa.gov> wrote:

Mr Hoover,

Thank you for your small business exemption notification letter. There are two things I would like you to address:

- The production volume numbers for 2010 – 2014 should reflect the number of trucks assembled.
- Could you clarify the ownership structure. You state that the company is a single member LLC. I need to know if the owner is a single individual. We need to establish if there are any affiliations with other companies that could be applicable when determining the number of employees per 13 CFR 121.103 and 13 CFR 106. If there are affiliations then please attest to this fact.

If you could please make these changes to the letter and we can review the request ASAP.

Thank you,

Stephen Healy

Subject: RE: Request to be a Small business glider assembler

AA&S Corporation and A&R Transport, Inc. have their own tax ID#'s and are separate entities. AA&S Corporation built the trucks and leased them to A&R Transport, Inc. (I had that information wrong on the previous email I sent to you.) So- our Small business glider assembler License would actually need to

be under AA&S Corporation 3310 W 2600 N Brigham City, UT 84302 not A&R Transport, Inc.

AA&S Corporation has been in business since 1980 and A&R Transport, Inc. has been in business since 1988. We have been building gliders for over 25 years. The main reason for building gliders for us is getting the Configuration we need for our operation-Axle spacing, Length, Fuel capacity, etc.

We built in [REDACTED] in 1993, [REDACTED] in 1997, [REDACTED] in 2001, [REDACTED] in 2007, [REDACTED] 2009 model year [REDACTED] in 2009, [REDACTED] in 2010-2011.

Each Glider was used as a leased vehicle by A&R Transport, Inc. for a while and then Sold.

[REDACTED] sold to Dairyway Tremonton, UT 2012

[REDACTED] sold to Roy's Truck Rowlett, TX 2013

[REDACTED] sold to Bouma Truck Sales, Choteau, MT 2014

[REDACTED] sold to Bouma Truck Sales, Choteau, MT 2015

[REDACTED] sold to Bouma Truck Sales, Choteau, MT 2016

[REDACTED] sold to Bouma Truck Sales, Choteau, MT 2017

We are currently working on bids from Peterbilt and Kenworth in Salt Lake City, UT.

Thanks

Sharon Lancaster

A&R Transport, Inc.

On 3/22/2018 7:47:05 AM, Healy, Stephen <healy.stephen@epa.gov> wrote:

Sharon,

The regulations require that A&R have sold at least one glider to an unrelated entity in 2014. The letter shows that no gliders were built in the 2011 through 2014 timeframe. Also AA&S Corporation appears to be an affiliate of A&R Transport as they share the same business address. What brand of gliders is A&R intending to build – PACCAR (Peterbilt and Kenworth) or Daimler (Freightliner or Western Star)?

Thank you,

Sharon,

Did A&R Transport Repair sell any of the gliders that they have assembled to another company or person in 2014? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party in 2014. The letter does not indicate if any gliders have been sold. Please see the excerpt from the regulation below

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

Thank you,

Stephen Healy

To: 'Kyle Hesby' [KyleHesby@butlermachinery.com]
Subject: RE: Question

Kyle,

The small business exclusion requires a notification letter to the EPA. I think a short letter that contains the following information:

- A statement that Butler Machinery Company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) You should double check this, but the threshold for Heavy Duty Truck Manufacturers appears to be 1500 employees - this is what is listed for NAICS Code 336120.
- A statement that Butler Machinery Company is solely owned by (owners name) and if there are multiple owners state each owner and the percentage ownership for each. Also state that Butler Machinery Company is not affiliated with any other company (assuming that is true). If there is an affiliation state what that is.
- State the number of employees for each of the past 3 years.
- State the number of gliders that Butler Machinery Company has built each year 2010 through 2014.
- Signed by the owner(s).

It's quickest for us if you can scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above if that helps. Don't need anything fancy. Please let me know if you have further questions.

Here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions - this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

Subject: Question

Steve, Thanks for taking my call today and helping with my questions. You had mentioned you might be able to help me by finding someone to answer this question:

If a customer removes a 2007 EPA engine in his/her 2007 truck and installs a 2002 engine (new reman) in this vehicle can we perform warranty work on the 2002 engine. It is in a 2 year warranty period but it is a non-compliant engine in this newer chassis?

Subject: EPA Small Business Notification Letter

Scott,

The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees - this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations - assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s).
- Should be on company letterhead if possible.
- Include company address and contact information.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. For your reference here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions - this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

Subject: RE: Question

Kyle,

The small business exclusion requires a notification letter to the EPA. I think a short letter that contains the following information:

- A statement that Butler Machinery Company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) You should double check this, but the threshold for Heavy Duty Truck Manufacturers appears to be 1500 employees - this is what is listed for NAICS Code 336120.

- A statement that Butler Machinery Company is solely owned by (owners name) and if there are multiple owners state each owner and the percentage ownership for each. Also state that Butler Machinery Company is not affiliated with any other company (assuming that is true). If there is an affiliation state what that is.
- State the number of employees for each of the past 3 years.
- State the number of gliders that Butler Machinery Company has built each year 2010 through 2014.
- Signed by the owner(s).

It's quickest for us if you can scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above if that helps. Don't need anything fancy. Please let me know if you have further questions.

Subject: Small Business Exemption Certification

Hello,

My name is Marisa Caudill. I work at Killer Cat Diesel in Franklin Furnace OH. We need to apply for our small business exemption certification for 2018. Do you have form that you could email me to fill out?

Thanks so much!

Marisa

Subject: RE: Request to be a Small business glider assembler

AA&S Corporation and A&R Transport, Inc. have their own tax ID#'s and are separate entities. AA&S Corporation built the trucks and leased them to A&R Transport, Inc. (I had that information wrong on the previous email I sent to you.) So- our Small business glider assembler License would actually need to be under AA&S Corporation 3310 W 2600 N Brigham City, UT 84302 not A&R Transport, Inc.

AA&S Corporation has been in business since 1980 and A&R Transport, Inc. has been in business since 1988. We have been building gliders for over 25 years. The main reason for building gliders for us is getting the Configuration we need for our operation-Axle spacing, Length, Fuel capacity, etc.

We built in [REDACTED] in 1993, [REDACTED] in 1997, [REDACTED] in 2001, [REDACTED] in 2007, [REDACTED] in 2009, [REDACTED] 2011 model year [REDACTED] in 2010-2011.

Each Glider was used as a leased vehicle by A&R Transport, Inc. for a while and then Sold.

[REDACTED] sold to Dairyway Tremonton, UT 2012

[REDACTED] sold to Roy's Truck Rowlett, TX 2013

[REDACTED] sold to Bouma Truck Sales, Choteau, MT 2014

[REDACTED] sold to Bouma Truck Sales, Choteau, MT 2015

[REDACTED] sold to Bouma Truck Sales, Choteau, MT 2016

[REDACTED] sold to Bouma Truck Sales, Choteau, MT 2017

We are currently working on bids from Peterbilt and Kenworth in Salt Lake City, UT.

Thanks

Sharon Lancaster

A&R Transport, Inc.

On 3/22/2018 7:47:05 AM, Healy, Stephen <healy.stephen@epa.gov> wrote:

Sharon,

The regulations require that A&R have sold at least one glider to an unrelated entity in 2014. The letter shows that no gliders were built in the 2011 through 2014 timeframe. Also AA&S Corporation appears to be an affiliate of A&R Transport as they share the same business address. What brand of gliders is A&R intending to build – PACCAR (Peterbilt and Kenworth) or Daimler (Freightliner or Western Star)?

Thank you,

Steve Healy

<healy.stephen@epa.gov> wrote:

Sharon,

Did A&R Transport Repair sell any of the gliders that they have assembled to another company or person in 2014? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that the small business had to have sold at least one glider to an outside party in 2014. The letter does not indicate if any gliders have been sold. Please see the excerpt from the regulation below

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

Thank you,

Kyle,
 Please find the attached 2017 Butler Machinery Company small business exclusion letter stamped EPA reviewed. Every year that Butler Machinery would like to use the small business exclusion you send an updated notification letter. So sometime in December you should send an updated letter in December 2017 to cover 2018 calendar year. Please let me know if you have any questions.

Subject: RE: Question

Kyle,

The small business exclusion requires a notification letter to the EPA. I think a short letter that contains the following information:

- * A statement that Butler Machinery Company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) You should double check this, but the threshold for Heavy Duty Truck Manufacturers appears to be 1500 employees – this is what is listed for NAICS Code 336120.
- * A statement that Butler Machinery Company is solely owned by (owners name) and if there are multiple owners state each owner and the percentage ownership for each. Also state that Butler Machinery Company is not affiliated with any other company (assuming that is true). If there is an affiliation state what that is.
- * State the number of employees for each of the past 3 years.
- * State the number of gliders that Butler Machinery Company has built each year 2010 through 2014.
- * Signed by the owner(s).

It's quickest for us if you can scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above if that helps. Don't need anything fancy. Please let me know if you have further questions.

Here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions – this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):
http://www.ecfr.gov/cgi-bin/retrieveECFR?gp=&SID=7b7047abdd965bd6a1b219b7b036fad9&mc=true&n=pt40.36.1037&r=PART&ty=HTML#se40.36.1037_1150

40 CFR 1037.635 – Glider kits and glider vehicles:
http://www.ecfr.gov/cgi-bin/retrieveECFR?gp=&SID=7b7047abdd965bd6a1b219b7b036fad9&mc=true&n=pt40.36.1037&r=PART&ty=HTML#se40.36.1037_1635

13 CFR Part 121
Small business general provisions: describes how to determine affiliations and determine employee count:
<http://www.ecfr.gov/cgi-bin/text-idx?SID=266ad73e48d34146461d5b3cc2a0d1ab&mc=true&node=sg13.1.121.a.sg0&rgn=div7>

Size standards for small business:
http://www.ecfr.gov/cgi-bin/text-idx?SID=266ad73e48d34146461d5b3cc2a0d1ab&mc=true&node=se13.1.121_1201&rgn=div8

I will ask our enforcement group about your other question.

Subject: Question

Steve, Thanks for taking my call today and helping with my questions. You had mentioned you might be able to help me by finding someone to answer this question:

If a customer removes a 2007 EPA engine in his/her 2007 truck and installs a 2002 engine (new reman) in this vehicle can we perform warranty work on the 2002 engine. It is in a 2 year warranty period but it is a non-compliant engine in this newer chassis?

Marisa,

I assume you are interested in building gliders, so the information I am providing is in the context of gliders. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s).
- Should be on company letterhead if possible.

- Include company address and contact information.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you.

Dear Mr. Healy:

In regards to the Small Business Exemption Certification, Killer Cat Diesel meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. We currently have four employees. Over the past 3 years, we have had a total of 12 employees.

I, Jeremy Lewis, am the sole owner of Killer Cat Diesel. Killer Cat Diesel is not affiliated with any other company. For years 2010-2013, Killer Cat Diesel  Killer Cat Diesel built  in 2014.

Sincerely,

Jeremy Lewis

Owner

Stephen,

We have addressed the items you requested in your email dated February 14, 2017 to allow us to install engines in truck glider kits.

Butler Machinery Company has 816 employees as of December 2017, which is below the level of 1,500 required by 13 CFR 121.201 using the NAICS code 336120.

Butler Machinery Company is solely owned by the following individuals, who are all family.

Dan Butler	38%
Nathan Butler	13%
Payton Thimjon	4%
Mason Thimjon	4%
Isaac Butler	4%
Twylah Blotsky	14%
Jim Blotsky	1%
Jacob Blotsky	11%
Joshua Blotsky	11%

Butler Machinery has one wholly owned subsidiary, which is North Central Rental and Leasing. We also have ownership interests in MidStates VRS LLC and Rural Tower Network.

Butler Machinery Company has employed the following number of people for each of the last three years as of December 31

2017-816
 2016-858
 2015-1014

OUR MISSION: To build long term relationships with our customers, founded on trust, generating mutual growth and success.

Butler Machinery Company has installed engines in the following number of truck glider kits each of the following years

2010
2011
2012
2013
2014

Subject: RE: Scan from Peterbilt of Evansville

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Subject: RE: Small Business Exempt Form

Shelly,

The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees - this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations - assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s).
- Should be on company letterhead if possible.
- Include company address and contact information.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps.

For your reference here are a number links to regulations that are applicable:

Subject: RE: Builder of Glider Kits

Kevin,
 EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

Steve,

This form letter shows that Roger's Relics has zero employees. That seems very odd. Also the small business notification letters normally come directly from the small business and not an intermediary. I would prefer the notification come directly from Roger's Relics with an accurate employee count and a statement addressing affiliated companies.

Thank you,

Subject: RE: Glider Kit assembler

Mr Brown,

The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that their company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees - this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that their company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations - assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that their company has built each year 2010 through 2014.
- Signed by the owner(s) or corporate official.

They should scan the signed letter and email the PDF file to me. I will then review it, stamp it and return it to them. They can use the wording I used above (just substitute in the actual company name) if that helps.

For your reference here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions - this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

Subject: Question re: Glider Declaration Letter

I'm writing to confirm that the following content and format of my company's notification letter re: Glider Kit Assembly meets requirements for your office. I welcome all feedback to ensure conformance to declaration/notification requirements. There are a few data elements I'm gathering – I've noted as such in the letter.

August 16, 2017

Stephen Healy
EPA OTAQ
Compliance Division

Per Daimler Truck North America (DTNA) 2018 Glider Kit purchase guidelines, PENN Power Group (PPG) respectfully declares eligibility to assemble 'glider kits' and introduce glider vehicles into commerce IAW EPA standards. I attest to the following information:

- PPG having 525 employees meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201 referencing NAICS Code 336120
- PPG is owned by ; add % ownership if applicable – no other affiliations
- Number of employees for past 3 years:
 - 2017 - 525

- 2016 - 550
- 2015 - 565
- Number of Gliders build by PPG:
 - 2010 – ##
 - 2011 – ##
 - 2012 – ##
 - 2013 – ##
 - 2014 – ##

Please contact Steve Lewis, Executive Vice President of Branch Operations at slewis@pennpowergroup.com or 215-335-0500 for additional information.

Sincerely,

Al Clark

Jenny,

I have a couple questions. Is Weakland's Mechanic Shop affiliated with any other companies? Have you sold any of the gliders that you've built to outside customers? I will be out of the office after today until next Tuesday.

Thanks

Sent: 3/28/2018 5:39:36 PM
To: Mike Yates [myates@truckcentersinc.com]
Subject: RE: Truck Centers, Inc. EPA Certification

Mr Yates,

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions – this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

Subject: Truck Centers, Inc. EPA Certification

Mr. Stephen Healy,

I am Michael Yates, the President and Minority Owner of Truck Centers, Inc. Our majority owner and CEO, M. John Hopkins IV, is a veteran who is still Very active in our business. We are wanting to get an EPA Certification in order for us to build gliders to sell to the end user. We are a Franchised Dealer Heavy/Medium Duty Truck Dealer for Freightliner, Western Star, FUSO, and Ottawa Spotter Trucks. Our ownership is made up of 4 individuals:

- | | | |
|--|--------|-------|
| • M. John Hopkins IV,
CEO | 78.78% | |
| • Michael F. Yates, President | | 4.12% |
| • Katie Hopkins Snyder, Executive Vice President | | 8.72% |
| • Justin Hopkins, Vice President Sales | | 8.38% |

We actually built and sold Glider Kits in the following calendar years:

- 2010
- 2011
- 2012
- 2013
- 2014
- 2015
- 2016

We feel our company meets the criteria for a small business under 40CFR 1037.150 NAICS Code 336120. As well as, the small business criteria specified Under 13 CFR 121.201.

Please advise me (us on what we need to do in order to become certified to build gliders under the new regulations.

Thank you for your help in assisting us in obtaining the certification.

Sincerely,

Michael F. Yates, President

Subject: RE: Ra-Ly Transport LLC / Glider request

Lance,

Has Ra-Ly Transport LLC sold any gliders to outside parties? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party. There is no indication in the attached letter as to sales of gliders. Please see the excerpt from the regulation below.

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Here is a web link to the section of regulations, 40 CFR 1037.150(t):

https://www.ecfr.gov/cgi-bin/retrieveECFR?gp=&SID=dd999ef3d73beaa8f97f8c57bf98efa1&mc=true&n=pt40.36.1037&r=PART&ty=HTML#se40.36.1037_1150

PACCAR Glider Vehicle Assembler Certification

Enter Company Name

(hereinafter referred to as "Glider Vehicle Assembler") certifies to PACCAR, Inc the information requested herein to assure compliance with 40 CFR 1037.635 and 1037.150 with respect to glider vehicles produced on or after January 1, 2018 from glider kits purchased from PACCAR Inc's Kenworth and Peterbilt divisions.

Glider Vehicle Assembler will complete the assembly of all designated glider kits provided by a division of PACCAR, Inc by installing all missing components to complete the assembly of the glider vehicle. This could include, but would not be limited to, the engine, transmission, rear axle(s), and exhaust components.

Glider Vehicle Assembler certifies that each engine (including remanufactured engines) installed in a completed glider vehicle utilizing a designated glider kit will be installed in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Volume Limitations Certification

Pursuant to 40 CFR 1037.150(t)(1), for calendar year 2018 through calendar year 2020, you may produce a limited number of exempt glider vehicles. The limit applies to the quantity of your combined yearly production of vehicles from all vehicle OEM glider kits, and is equal to your highest annual production of glider vehicles in any calendar year between 2010 to 2014, up to a maximum of 300. Glider vehicles you produce in excess of this limit must comply with 40 CFR 1037.635, which includes delegated assembly, and requires the engine installed to be a post-2010 emissions engine.

Glider Vehicle Assembler certifies that its highest annual production of glider vehicles between 2010 through 2014 for sale or use in the United States was: Enter Volume [REDACTED] in Year Circle One 2010 2011 2012 2013 2014

Glider Vehicle Assembler certifies that it sold at least one glider vehicle in calendar year 2014. Initial Here [Signature]

Small Manufacturer Status Certification

Glider Vehicle Assembler certifies that it will be producing/assembling the requested exempt glider kits for sale or use in the United States. Glider Vehicle Assembler meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, the Glider Vehicle Assembler notified the Designated Compliance Officer of the U.S. EPA of its small business status for vehicle model year: Enter Model Year [REDACTED]

A copy of this reviewed and accepted notification is attached with this request. Initial Here [Signature]

Record Keeping and Reporting

Glider Vehicle Assembler will be responsible for maintaining records of all glider vehicles they produce/assemble beginning in calendar year 2017. U.S. EPA may require reporting 2010 through 2014 volumes as well as current year produced/assembled glider vehicle volume as an end-of-year report.

Compliance Requirements

Vehicle Assembler acknowledges its understanding that the following are all violations of the Clean Air Act under 40 CFR 1068.101 and/or 1068.105, and subject to EPA enforcement and penalties outlined in §1068.101(b)(1):

- (1) Introducing vehicles into commerce in an uncertified configuration;
- (2) Failure to follow OEM instructions or otherwise make unauthorized changes;
- (3) Failure to keep records, send reports, or give EPA information as required under this part or the Clean Air Act; and
- (4) Exceeding vehicle volume limitations per 40 CFR 1037.150(t)(1) and not complying with 1037.635.

Instructions: E-mail the completed and signed form to PB.GHG.Sales.Plan.Management@PACCAR.com. Any questions may be sent to the same address.

Reviewed and Accepted
Date 9/14/17 EPA Rep [Signature]

Mr. Healy:

We have been given your information from DTNA to provide the necessary information for our approval for glider assembly in 2018. Per the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201, our company meets the size threshold for Heavy Duty Truck Manufacturers of less than 1500 employees. On average, we have had between 70-75 employees actively working at River's Truck Center, Inc. at one time over the past three years. Our W-2 count has been the following for the past three years:

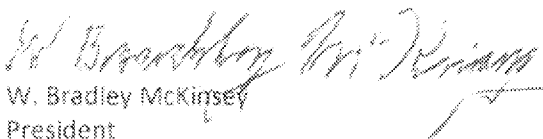

2014	82
2015	87
2016	89
2017	81 (to date)

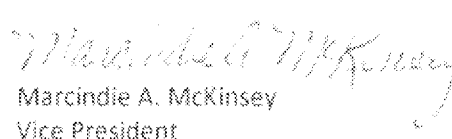

River's Truck Center, Inc. is owned by W. Bradley and Marcindie A. McKinsey. They each own 50% of the business, and there are no other businesses in which they have that has any affiliation with River's Truck Center, Inc. The number of gliders that our company has built between 2010 and 2014 is listed below:

2010	
2011	
2012	
2013	
2014	

Thank you for your time and attention to this matter. Should you have any further questions, we can be reached at 800-930-4903. Your best point of contact for this matter would be Richard Brooks.

Respectfully,

W. Bradley McKinsey
President

Marcindie A. McKinsey
Vice President

Ken,

Can you please have your client update the letter with a few additional items:

- Cleason Martin is shown as owning 97% of the company – who owns the remainder?
- Did they assemble gliders in any year other than 2013? If not please put in zeros to indicate that.
- Have they sold the glider(s) that they built or was it for their own business?
- Indicate the employee count for the previous three years.

Thanks

On Apr 18, 2018, at 2:48 PM, Healy, Stephen <healy.stephen@epa.gov> wrote:

Hayden,

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

DATE: 6/7/18

Dear Stephen:

B and B Property, LLC meets the small business criteria listed in 40 CFR 1037.150 © and the small business criteria specified in 13 CFR 121.201. Currently our number of employees is well below the 1500 employee threshold for Heavy Duty Truck Manufacturers as listed for NAICS CODE 336120.

Our company is solely owned by Hayden Brooke (40% ownership) and Dianne Brooke (60% ownership). We are affiliated with Loftin Brothers Transportation Company, Inc. of Montgomery, Alabama.

In the past three years we have had the following number of employees: 28 in 2016, 23 in 2017, and 18 in 2018. In 2010, [REDACTED] built; in 2011, [REDACTED] built; in 2012, [REDACTED] built; in 2013, [REDACTED] built; and in 2014, [REDACTED] built. There were [REDACTED] sold in 2014.

We intend to utilize the small business provisions, and this letter serves as notification of our justification for qualification for the small business allowances.

Sincerely,

Hayden Brooke

Lance,

Has Ra-Ly Transport LLC sold any gliders to outside parties? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party. There is no indication in the attached letter as to sales of gliders. Please see the excerpt from the regulation below.

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Here is a web link to the section of regulations, 40 CFR 1037.150(t):

Ra-Ly Transport, LLC respectfully requests authorization to utilize the small business exclusion requirements of 1037.150(c) to continue assembling semi-tractor glider kits with pre-emission engines manufactured prior to 2007 for a select number of truck owners from our rural customer base.

Ra-Ly Transport, LLC meets the criteria listed in 40 CFR 10.7.150(c) and 13 CFR 121.201 Ra-Ly Transport, LLC was founded in 2001. Randy Schilt retains 50% ownership, and Lyle Helle retains the remaining 50% ownership of Ra-Ly transport, LLC.

In addition Ra-Ly Transport, LLC, has employed 2 full-time mechanics, 2 part-time mechanics, 11 full-time drivers, 26 part-time drivers, and 1 manager in 2017. Prior to 2017, Ra-Ly Transport, LLC employed two full-time mechanics, 2 part-time mechanics, 13 full-time drivers, 29 part-time drivers, and 1 manager.

Ra-Ly Transport, LLC [REDACTED] 2010
Ra-Ly Transport, LLC [REDACTED] 2011.
Ra-Ly Transport, LLC [REDACTED] 2012.
Ra-Ly Transport, LLC [REDACTED] in 2013.
Ra-Ly Transport, LLC [REDACTED] in 2014.

Very respectfully,

Randy Schilt, Co-Owner, President

Subject: RE: Small Business Exemption

Ken,
The letter seems to indicate that Martin Truck Service has not sold any gliders. The regulations require that a small business sell at least one of the gliders that they have built. Here is the regulation language:

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

If Martin Truck Service has only built gliders for their own use than I cannot accept their small business notification letter. Please confirm whether or not they have sold a glider.

Thank you,

Stephen Healy

Ken,

Can you please have your client update the letter with a few additional items:

- Cleason Martin is shown as owning 97% of the company – who owns the remainder?
- Did they assemble gliders in any year other than 2013? If not please put in zeros to indicate that.
- Have they sold the glider(s) that they built or was it for their own business?
- Indicate the employee count for the previous three years.

Thanks

I sold a glider I Built in 2012 in 2014 if that qualifies

From: Healy, Stephen [mailto:healy.stephen@epa.gov]
Sent: Tuesday, March 06, 2018 12:38 PM
To: Misty Spoolstra; 'John Hutter'
Subject: RE: J&J Trucking Brandon, LLC

John,

I have one question, did JJ trucking sell a glider in 2014? To qualify for the EPA small business glider exemption the small business must have built gliders in the 2010 through 2014 timeframe and sold at least one glider in 2014. Here is an excerpt from the regulations that details these requirements:

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

(ii) In a given calendar year, you may produce up to 300 exempt vehicles under this section, or up to the highest annual production volume you identify in paragraph (t)(1) of this section, whichever is less.

Please let me know if you have any questions.

Subject: EPA Small Business Notification Letter For Glider Builders

Ricky,

Got your voicemail. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees - this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations - assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s).

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps.

For your reference here are a number links to regulations that are applicable:

Subject: RE: Glider Kit - Letter of Intent to Build - REVISED

Jason,

Has Freightliner of Savannah sold any gliders to outside parties? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party. There is no indication in the attached letter as to sales of gliders. Please see the excerpt from the regulation below.

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Here is a web link to the section of regulations, 40 CFR 1037.150(t):

Subject: Glider Kit - Letter of Intent to Build

Mr. Healy,

Our contacts at Daimler Trucks North America advised us that we need to send the EPA a letter of we intend to build any glider kits after 1/1/2018. Attached is our letter of intent to build glider kits. Please let me know if you need anything else.

Regards,

Jason Williams
President

Date 1/24/18 EPA Rep

A handwritten signature in black ink, appearing to be "J. Williams", written over the "EPA Rep" text.

Dear Mr. Healey,

This letter is to notify EPA that we intend to utilize the small business provisions as our company meets the small business criteria listed in 40 CFR 1037.150 c and the small business criteria specified in 13 CFR 121.201.

Ownership Structure of Freightliner of Savannah, Inc.

- E. Jason Williams 52.5%
- Joseph M. Williams 47.5%

Ownership structure of affiliate Freightliner of Augusta, LLC

- E. Jason Williams 100.00%

The total number of employees of both companies for the past three years is as follows:

- 2015 86
- 2016 90
- 2017 89

Our company has built gliders for the years 2012 through 2014 as follows:

- 2012 [REDACTED]
- 2013 [REDACTED]
- 2014 [REDACTED]

Thank you.

Sincerely,

A handwritten signature in black ink, appearing to be "J. Williams", written over the "Sincerely," text.

Subject: RE: Glider Kit - Letter of Intent to Build - REVISED

Jason,

Has Freightliner of Savannah sold any gliders to outside parties? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party. There is no indication in the attached letter as to sales of gliders. Please see the excerpt from the regulation below.

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Here is a web link to the section of regulations, 40 CFR 1037.150(t):

https://www.ecfr.gov/cgi-bin/retrieveECFR?gp=&SID=dd999ef3d73beaa8f97f8c57bf98efa1&mc=true&n=pt40.36.1037&r=PART&ty=HTML#se40.36.1037_1150

Please let me know if you have any questions.

To: 'Suzanne Girardi' [suzanne@girardis.net]
Subject: RE: Request for Glider Assembly

Suzanne,

The letter you provided is very close to having all the required information. There are a few additional bits of information we require. Below is an email is end out explain the requirements:

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees - this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations - assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

healy.stephen@epa.gov

Tri-State Truck Repair, Inc. respectfully requests authorization to utilize the small business exclusion requirements of 1037.150(c) to continue assembling semi-tractor glider kits with pre-emission engines manufactured prior to 2007 for a select number of truck owners from our rural customer base.

Tri-State Truck Repair, Inc. meets the small business criteria listed in 40 CFR 1037.150 (c) and 13 CFR 121.201. Tri-State Truck Repair, Inc. was founded in 2001 by Jason and Vicky Pfab. Together they retain 100% ownership of the company. Tri-State Truck Repair, Inc. is not affiliated with any other company.

In addition to working full-time managing Tri-State Truck Repair, Jason and his wife Vicky have employed three full-time mechanics since 2012. Prior to 2012, Tri-State Truck Repair, Inc. employed two full-time mechanics.

Tri-State Truck Repair, Inc. [REDACTED] 2010 and 2011.

Tri-State Truck Repair, Inc. [REDACTED] in 2012 and 2013.

Tri-State Truck Repair, Inc. built [REDACTED] in 2014.

Very respectfully,

Jason Pfab, owner and president

Vicky Pfab, owner

Mr. Breaux,

Thank you for your inquiry regarding glider trucks. There is not a specific form that you need to fill out, but depending on your particular situation you may need to send me a letter stating your qualifications to meet certain regulation requirements and I will give details of what information you will need to provide. The regulation pertaining to gliders recently changed and I will need to know a couple details to determine what path you will need take to acquire a glider:

- What model year engine are you intending to install in your glider?
- Did you build at least one glider in 2014 calendar year for sale to someone else?

You can either send me an email response to these questions or give me a call. I can also provide you with the actual regulation language if you are interested.

Thank you,

Subject: RE: J&J Trucking Brandon, LLC

If you sold one in 2014 then you should indicate that on the letter where it currently shows zero. Also at the top of the letter where it indicates model year it shows 2018. Unless you have already reserved a 2018 glider I suspect you will be getting a 2019 model year glider and you should indicate that on the letter as well. You should check with your dealer to confirm – this will avoid us having both go through this again.

Thank you,

Steve Healy

I sold a glider I Built in 2012 in 2014 if that qualifies

From: Healy, Stephen [mailto:healy.stephen@epa.gov]
Sent: Tuesday, March 06, 2018 12:38 PM
To: Misty Spoolstra; 'John Hutter'
Subject: RE: J&J Trucking Brandon, LLC

John,

I have one question, did JJ trucking sell a glider in 2014? To qualify for the EPA small business glider exemption the small business must have built gliders in the 2010 through 2014 timeframe and sold at least one glider in 2014. Here is an excerpt from the regulations that details these requirements:

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

(ii) In a given calendar year, you may produce up to 300 exempt vehicles under this section, or up to the highest annual production volume you identify in paragraph (t)(1) of this section, whichever is less.

Please let me know if you have any questions.

Dear Stephen,

Lonestar Freightliner Group LLC dba Lonestar Truck Group – Notification of Exemption

As requested in a letter from Daimler Trucks North America, dated August 9th, 2017, we hereby notify you of our exemption under 40 C.F.R. § 1037.150(c) & make the following statements:-

1. In the event that our assembly of Glider Vehicles classifies us as a Heavy Duty Truck Manufacturer, we meet the small business criteria as we have less than 1,500 employees.
2. The group ownership, together with the relevant percentages of ownership, are shown on the attached addendum.
3. Our headcount as at the end of the last three years has been as follows:-
 - 2015 = 583
 - 2016 = 551
 - 2017 = 598
4. The number of gliders that our company has built from 2010-2014 is as follows:-
 - 2010 = 
 - 2011 = 
 - 2012 = 
 - 2013 = 
 - 2014 = 

Please let me know if there is anything else that you need in this regard.

Your sincerely,

James Bennie

EPA OTAQ Compliance Division
Attention: Mr. Stephen Healy

Reviewed and Accepted
Date 10/23/17 EPA Rep 

Mr. Healy,

Our company, Heritage Truck Centers, Inc., is seeking to declare eligibility for assembling glider kits. Please accept this letter as our declaration of compliance with the current EPA regulations with regards to glider assembly.

We currently meet the small business criteria listed and specified in 40 CFR 1037.150 and 13 CFR 121.201. The company is owned by:

Gary Kale	-	60.69%
Carl Britton	-	8.72%
Carl Hubbard	-	8.72%
Richard Otten	-	14.44%
William Duncan	-	7.43%

Gary Kale and Carl Britton are also equal partners in the ownership of Long Run Transportation, Inc. Over the past 3 years, due to the ever changing economic factors in our industry we have gone from 208 employees in 2015 and 2016 to our current total of 62. While the company may not be as large, we feel it is stronger than ever and we continue to seek new avenues to keep growth and employment alive and well.

Our company views glider assembly as an opportunity to offer quality trucks to our customers while remaining price competitive. As you can see from the list below glider production is an endeavor we've continued to pursue through the years:

2010	-	
2011	-	
2012	-	
2013	-	
2014	-	

Stephen, it is with high hopes that we submit this letter and complete the notification process with the EPA so that we may continue to order gliders. If you have any questions please do not hesitate to reach out to me directly via phone: (304) 254-7827, email: gkale@heritagetrks.com or regular mail: 322 Dry Hill Road, Beckley, WV 25801. We appreciate your time and attention to this matter.

Sincerely,

Gary D. Kale

Re: 2018 WRITTEN REQUEST FOR PURCHASE OF GLIDER KIT FORM

Dear Mr. Healy,

Please see below the answers that show that we do meet the small business criteria along with the additional information requested by your agency.

Our Company Ace Service Center Inc. is owned 100% by myself, Alfred J Olbrych

Affiliations with other companies are as follows:

School House Leasing, Inc – 51% by me and 49 % by Sharon S Olbrych
S.L.A. Transport, Inc. – 100% by me
Olbrych Realty, Inc. – 51% by me and 49% by Sharon S Olbrych
Universal Warehousing, Inc. – 100% by me
School House Pools – 100% by me

The number of employees combined for all of the companies above are as follows:

2015 – 109
2016 - 115
2017 - 125

As far as the number of gliders build from 2010 to 2014 – We built [REDACTED]

Should you have any other questions or need any additional information, my email is folbrych@schoolhouseco.net and my office phone is 518-725-6960 ext. 101.

Regards,

Alfred J. Olbrych
President

Bob,
I am sorry but if you have not sold at least one glider that you have assembled then the regulation indicates that you are not eligible for this exemption. The glider regulations are currently under review by the EPA administrator and may change in near future. You are welcome to keep in touch with me to see if any changes are made. You can also possibly purchase a glider through another builder that has a greater allotment than they can use.

Please let me know if you have any other questions.

On Tue, Oct 17, 2017 at 9:50 AM, Healy, Stephen <healy.stephen@epa.gov> wrote:

Bob,

Did you sell the glider that was built in 2013? To qualify for the small business exemption the regulations require that you've sold at least one glider. The regulation is 40 CFR 1037.150(t)(i). Here is the excerpt below:

§1037.150 Interim provisions.

(t)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Did John P Halliday Trucking Inc sell any gliders in 2014? To qualify as an exempt small business the glider exemption regulations (found in 40 CFR 1037.150(t)) require that the business had to have sold at least one glider in 2014. I have included an excerpt from the regulation and highlighted the specific requirement.

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Subject: RE: 2018 Glider Assembly

Bob,
Did you sell the [REDACTED] built in 2013? To qualify for the small business exemption the regulations require that you've sold at least one glider. The regulation is 40 CFR 1037.150(t)(i). Here is the excerpt below:

§1037.150 Interim provisions.

(t)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Thank you,

To: 'Doug Cisler' [D.Cisler@BergerDealerGroup.com]
Subject: RE: EPA Heavy Duty GHG Small Business Provisions

Doug,

The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees - this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations - assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s).

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps.

For your reference here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions - this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

PACCAR Glider Vehicle Assembler Certification

Enter Company Name

Cantril Feed Trucking LLC

(hereinafter referred to as "Glider Vehicle Assembler") certifies to PACCAR, Inc the information requested herein to assure compliance with 40 CFR 1037.635 and 1037.150 with respect to glider vehicles produced on or after January 1, 2018 from glider kits purchased from PACCAR Inc's Kenworth and Peterbilt divisions.

Glider Vehicle Assembler will complete the assembly of all designated glider kits provided by a division of PACCAR, Inc by installing all missing components to complete the assembly of the glider vehicle. This could include, but would not be limited to, the engine, transmission, rear axle(s), and exhaust components.

Glider Vehicle Assembler certifies that each engine (including remanufactured engines) installed in a completed glider vehicle utilizing a designated glider kit will be installed in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Volume Limitations Certification

Pursuant to 40 CFR 1037.150(i)(1), for calendar year 2018 through calendar year 2020, you may produce a limited number of exempt glider vehicles. The limit applies to the quantity of your combined yearly production of vehicles from all vehicle OEM glider kits, and is equal to your highest annual production of glider vehicles in any calendar year between 2010 to 2014, up to a maximum of 300. Glider vehicles you produce in excess of this limit must comply with 40 CFR 1037.635, which includes delegated assembly, and requires the engine installed to be a post-2010 emissions engine.

Glider Vehicle Assembler certifies that its highest annual production of glider vehicles between 2010 through 2014 for sale or use in the United States was: Enter Volume 4 in Year Circle One 2010 2011 2012 2013 2014

Glider Vehicle Assembler certifies that it sold at least one glider vehicle in calendar year 2014. Initial Here

A.Z

Small Manufacturer Status Certification

Glider Vehicle Assembler certifies that it will be producing/assembling the requested exempt glider kits for sale or use in the United States. Glider Vehicle Assembler meets the criteria referenced in 40 CFR 1037.150(e) and found in 13 CFR 121.201 for a small business. As such, the Glider Vehicle Assembler notified the Designated Compliance Officer of the U.S. EPA of its small business status for vehicle model year: Enter Model Year

Record Keeping and Reporting

Glider Vehicle Assembler will be responsible for maintaining records of all glider vehicles they produce/assemble beginning in calendar year 2017. U.S. EPA may require reporting 2010 through 2014 volumes as well as current year produced/assembled glider vehicle volume as an end-of-year report.

Compliance Requirements

Vehicle Assembler acknowledges its understanding that the following are all violations of the Clean Air Act under 40 CFR 1068.101 and/or 1068.105, and subject to EPA enforcement and penalties outlined in §1068.101(b)(1):

- (1) Introducing vehicles into commerce in an uncertified configuration;
- (2) Failure to follow OEM instructions or otherwise make unauthorized changes;
- (3) Failure to keep records, send reports, or give EPA information as required under this part or the Clean Air Act; and
- (4) Exceeding vehicle volume limitations per 40 CFR 1037.150(i)(1) and not complying with 1037.635.

Instructions: E-mail the completed and signed form to PB.GHG.Sales.Plan.Management@PACCAR.com. Any questions may be sent to the same address.

Subject: EPA Glider Allowances For Small Business

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty

Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).

- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

Re: EPA regulations (40 CFR 1037.150)

To Stephen Healy:

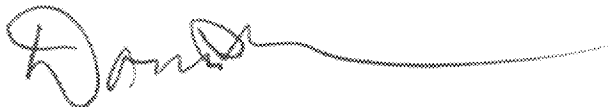

Thank you for forwarding information on small businesses building gliders.

Our company (NLI Sales, Inc.) meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. We are a small family owned and operated used truck dealer with a salvage yard, that also build gliders. We have about 20 full time employees, during peak season we might get to 30 employees, thus we are a small company. We started building gliders in [REDACTED] We built [REDACTED] in 2015.

NLI Sales, Inc is owned by Donnie R Newman, Sr & Jowainne Newman jointly. We are not affiliated with any other companies in Alabama or otherwise.

We would like to be able to continue to assemble gliders.

Sincerely,

Donnie R. Newman, Sr.
NLI Sales, Inc.

Subject: RE: J&J Trucking Brandon, LLC

John,
 I have one question, did JJ trucking sell a glider in 2014? To qualify for the EPA small business glider exemption the small business must have built gliders in the 2010 through 2014 timeframe and sold at least one glider in 2014. Here is an excerpt from the regulations that details these requirements:

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

(ii) In a given calendar year, you may produce up to 300 exempt vehicles under this section, or up to the highest annual production volume you identify in paragraph (t)(1) of this section, whichever is less.

Please let me know if you have any questions.

PACCAR Glider Vehicle Assembler Certification

Enter Company Name

Terry's Truck and Trailer Repair

(hereinafter referred to as "Glider Vehicle Assembler") certifies to PACCAR, Inc. the information requested herein to assure compliance with 40 CFR 1037.635 and 1037.150 with respect to glider vehicles produced on or after January 1, 2018 from glider kits purchased from PACCAR Inc.'s Kenworth and Peterbilt divisions.

Glider Vehicle Assembler will complete the assembly of all designated glider kits provided by a division of PACCAR, Inc. by installing all missing components to complete the assembly of the glider vehicle. This could include, but would not be limited to, the engine, transmission, rear axle(s), and exhaust components.

Glider Vehicle Assembler certifies that each engine (including remanufactured engines) installed in a completed glider vehicle utilizing a designated glider kit will be installed in a verified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Volume Limitations Certification

Pursuant to 40 CFR 1037.150(t)(1), for calendar year 2018 through calendar year 2020, you may produce a limited number of exempt glider vehicles. The limit applies to the quantity of your combined yearly production of vehicles from all vehicle OEM glider kits, and is equal to your highest annual production of glider vehicles in any calendar year between 2010 to 2014, up to a maximum of 300. Glider vehicles you produce in excess of this limit must comply with 40 CFR 1037.635, which includes delegated assembly, and requires the engine installed to be a post-2010 emissions engine.

Glider Vehicle Assembler certifies that its highest annual production of glider vehicles between 2010 through 2014 for sale or use in the United States was: Enter Volume [REDACTED] in Year Circle One 2010 2011 2012 2013 2014

Glider Vehicle Assembler certifies that it sold at least one glider vehicle in calendar year 2014. Initial Here

TG

Small Manufacturer Status Certification

Glider Vehicle Assembler certifies that it will be producing/assembling the requested exempt glider kits for sale or use in the United States. Glider Vehicle Assembler meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, the Glider Vehicle Assembler notified the Designated Compliance Officer of the U.S. EPA of its small business status for vehicle model year. Enter Model Year

2019

A copy of this reviewed and accepted notification is attached with this request. Initial Here

TG

Record Keeping and Reporting

Glider Vehicle Assembler will be responsible for maintaining records of all glider vehicles they produce/assemble beginning in calendar year 2017. U.S. EPA may require reporting 2010 through 2014 volumes as well as current year produced/assembled glider vehicle volume as an end-of-year report.

Compliance Requirements

Vehicle Assembler acknowledges its understanding that the following are all violations of the Clean Air Act under 40 CFR 1068.101 and/or 1068.105, and subject to EPA enforcement and penalties outlined in §1068.101(b)(1):

- (1) Introducing vehicles into commerce in an uncertified configuration;
- (2) Failure to follow OEM instructions or otherwise make unauthorized changes;
- (3) Failure to keep records, send reports, or give EPA information as required under this part or the Clean Air Act; and
- (4) Exceeding vehicle volume limitations per 40 CFR 1037.150(t)(1) and not complying with 1037.635.

Instructions: E-mail the completed and signed form to PB.GHG.Sales.Plan.Management@PACCAR.com. Any questions may be sent to the same address.

Cc: Deborah Rogstad <deborah.rogstad@paccar.com>

Steve,

This form letter shows that Roger's Relics has zero employees. That seems very odd. Also the small business notification letters normally come directly from the small business and not an intermediary. I would prefer the notification come directly from Roger's Relics with an accurate employee count and a statement addressing affiliated companies.

Thank you,

Stephen Healy

Subject: Small Business Exemption as a Glider Vehicle Assembler

Stephen,

Please see the attached amended EPA form for Roger Relics, Deborah with Peterbilt Motors was helpful in pointing out the "Assembled (builder) & Sales" have the same meaning on this form. Please accept this amendment as the original.

Thanks

Steve

To: tonybodway@truckcountry.com
Subject: EPA Small Business Glider Builder Information

Tony,

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

Subject: Glider Requirements

Ron,
 The general small business provision is found in 40 CFR 1037.150(c). Below is a link to the electronic code of federal regulations for 40 CFR 1037.150 and the actual text also:

ECFR 1037.150 Link: https://www.ecfr.gov/cgi-bin/text-idx?SID=0a99d35dedf703c3cb55bb791230f1a8&mc=true&node=pt40.36.1037&rgn=div5#se40.36.1037_1150

§1037.150 Interim provisions.

(c) *Provisions for small manufacturers.* Standards apply on a delayed schedule for manufacturers meeting the small business criteria specified in 13 CFR 121.201. Apply the small business criteria for NAICS code 336120 for vocational vehicles and tractors and 336212 for trailers; the employee limits apply to the total number employees together for affiliated companies. Qualifying small manufacturers are not subject to the greenhouse gas standards of §§1037.105 and 1037.106 for vehicles with a date of manufacture before January 1, 2022. Similarly, qualifying small manufacturers are not subject to the greenhouse gas standards of §1037.107 for trailers with a date of manufacture before January 1, 2019. In addition, qualifying small manufacturers producing vehicles that run on any fuel other than gasoline, E85, or diesel fuel may delay complying with every later standard under this part by one model year. Qualifying manufacturers must notify the Designated Compliance Officer each model year before introducing these excluded vehicles into U.S. commerce. This notification must include a description of the manufacturer's qualification as a small business under 13 CFR 121.201. You must label your excluded vehicles with the following statement: "THIS VEHICLE IS EXCLUDED UNDER 40 CFR 1037.150(c)." Small manufacturers may certify their vehicles under this part 1037 before standards start to apply; however, they may generate emission credits only if they certify their entire U.S.-directed production volume within the applicable averaging set for that model year.

It looks like the employee limit for NAICS code 336120 is 1500 employees. Below are links for the size standards, determining affiliations and determining the employee count:

13 CFR 121.201 Size standards for small business:

http://www.ecfr.gov/cgi-bin/text-idx?SID=266ad73e48d34146461d5b3cc2a0d1ab&mc=true&node=se13.1.121_1201&rgn=div8

13 CFR Part 121 Small business general provisions: describes how to determine affiliations and determine employee count:

<http://www.ecfr.gov/cgi-bin/text-idx?SID=266ad73e48d34146461d5b3cc2a0d1ab&mc=true&node=sg13.1.121.a.sg0&rgn=div7>

There is a lot of information for you to look through here. We can talk again and I can provide more information on what to provide in a small business notification letter.

Thanks,

Dear Mr. Healy,

This is a written request that Omaha Truck Center, Inc be qualified for glider assembly approval for the coming 2018 year. My company meets the small business criteria listed in 40 CFR 1037.150 (c) for interim provisions and the small business criteria specified in 13 CFR 121.201.

I, Trey Mytty, have 100% sole ownership of Omaha Truck Center, Inc (TIN 47-0566062), along with 50% ownership of SelecTrucks of Omaha (TIN 47-0807522). In each of the past three years, Omaha Truck Center, Inc has had the following number of employees; 501=2016, 495=2015, 468=2014, with SelecTrucks of Omaha having 8=2016, 7=2015, 7=2014. We have also built the following number of gliders from the requested years of 2010 through 2014; 

Please, do not hesitate to call if I can be of further assistance.

Sincerely,

Trey Mytty
President and CEO

Subject: RE: Glider Exemptions

Dave,

Here is the information I send to small businesses interested in using the EPA small business glider builder provisions:

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees - this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations - assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

Lisi's Towing

Service, Inc.

Route 6 • 3402 Danbury Road • Brewster, NY 10509
845-278-6166

Mr. Stephen Healy
EPA

September 26, 2017

Lisi's Towing Service Inc. and its affiliate companies, Lisi's Automotive Inc. and Lisi's Transport Inc. meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – which are listed with NAICS Code 336120. The total number of employees includes that of the company and its affiliates is well below the criteria.

The following information is the number of employees for the past 3 years.

Lisi's Towing Service Inc. number of employees as follows:

In the year 2014 - 23

In the year 2015 – 18

In the year 2016 – 18

The Following are the Affiliate corporations:

Lisi's Automotive Inc. number of employees as follows:

In the year 2014- 21

In the year 2015– 15

In the year 2016- 16

Lisi's Transport Inc. - This Company does not employ any employees; this company only has vehicles registered under this corporate title.

Lisi's Towing Service Inc. certifies the highest production of a glider kit was in the year 2014. The volume was [REDACTED]

These companies are solely, 100% owned by me, Mr. Anthony Lisi; all companies are in the State of New York with no affiliation in any other state.

Sincerely,

Anthony Lisi
President
Lisi's Towing Service Inc.

Subject: RE: Compliance letter

Has Biehl's Truck Repair sold any of the gliders that they have assembled to another company or person? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party. The letter does not indicate if any gliders have been sold. Please see the excerpt from the regulation below

§1037.150 Interim provisions.

(i) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

Subject: Compliance letter

Good morning,

Please find the attached compliance letter.

Thank you,

Biehl's Truck Repair
Robert Biehl
2730 N 200 N
biehlstruckrepair@gmail.com

This letter is to notify you of my intention to utilize the small business provisions as required by the EPA regulations by meeting the small business criteria listed in 40 CFR 1037.150 © and criteria specified in 13 CFR 121.201.

This company is owned solely, by myself, Robert Biehl, and has been since it was established in 2001.

During the years of 2010 to 2014, the following statements are true:

2010 – my company built
2011 – my company built
2012 – my company built
2013 – my company built
2014 – my company built

Reviewed and Accepted
Date 3/22/18 EPA Rep

Additionally:

2015 – my company had 3 shop employees
2016 – my company had 3 shop employees
2017 – my company had 2 shop employees
2014 – sold 1 glider that was built and assembled to another company

Please feel free to contact me should you need any further information.

Sincerely,

Robert Biehl

On Tue, Feb 27, 2018 at 2:17 PM, Healy, Stephen <healy.stephen@epa.gov> wrote:

Darrel,

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).

- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

Subject: RE: Request to be a Small business glider assembler

AA&S Corporation and A&R Transport, Inc. have their own tax ID#'s and are separate entities. AA&S Corporation built the trucks and leased them to A&R Transport, Inc. (I had that information wrong on the previous email I sent to you.) So- our Small business glider assembler License would actually need to be under AA&S Corporation 3310 W 2600 N Brigham City, UT 84302 not A&R Transport, Inc.

AA&S Corporation has been in business since 1980 and A&R Transport, Inc. has been in business since 1988. We have been building gliders for over 25 years. The main reason for building gliders for us is getting the Configuration we need for our operation-Axle spacing, Length, Fuel capacity, etc.

We built in [REDACTED]

Each Glider was used as a leased vehicle by A&R Transport, Inc. for a while and then Sold.

[REDACTED] sold to Dairyway Tremonton, UT 2012

[REDACTED] sold to Roy's Truck Rowlett, TX 2013

[REDACTED] sold to Bouma Truck Sales, Choteau, MT 2014

[REDACTED] sold to Bouma Truck Sales, Choteau, MT 2015

[REDACTED] sold to Bouma Truck Sales, Choteau, MT 2016

[REDACTED] sold to Bouma Truck Sales, Choteau, MT 2017

We are currently working on bids from Peterbilt and Kenworth in Salt Lake City, UT.

Thanks

Subject: RE: glider form

Katie,

Did Bob Trimpe Trucking LLC sell any gliders in 2014? To qualify as an exempt small business the glider exemption regulations (found in 40 CFR 1037.150(t)) require that the business had to have sold at least one glider in 2014. I have included an excerpt from the regulation and highlighted the specific requirement.

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

On Tue, Feb 27, 2018 at 2:17 PM, Healy, Stephen <healy.stephen@epa.gov> wrote:

Darrel,

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions – this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

Subject: RE: Request to be a Small business glider assembler

Sharon,

The regulations require that A&R have sold at least one glider to an unrelated entity in 2014. The letter shows that [REDACTED] were built in the 2011 through 2014 timeframe. Also AA&S Corporation appears to be an affiliate of A&R Transport as they share the same business address. What brand of gliders is A&R intending to build – PACCAR (Peterbilt and Kenworth) or Daimler (Freightliner or Western Star)?

Thank you,

Steve Healy

Darrel,

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

Re: Model Year 2019

Request for Small Business Exemption as a Glider Vehicle Assembler

J&J Log and Lumber certifies that it qualifies as a small business per 13 CFR 121 and is classified as Heavy Duty Truck Manufacturing NAICS Code 336120 Subsector 336 – Transportation Equipment Manufacturing per 13 CFR 121.201.

Glider Vehicle Production

Year	Assembled	Sales (if different)
2014		
2013		
2012		
2011		
2010		

Based on the information provided above, our maximum annual exempt glider vehicle production for this model year is .

Employees

Year	Quantity
Current	75
Current – 1	75
Current – 2	75
Current – 3	75

Reviewed and Accepted
Date 3/2/18 EPA Rep 

Ownership Structure

Owner	% Ownership
Randy Williams	100%

I attest that J&J Log and Lumber not affiliated with any other company.

Please confirm that this request is acceptable and that J&J has met all the requirements for the small business exemption as a glider vehicle assembler. Thank you for your assistance.

Toby,

Could you please add the model year of glider you intend to assemble? PACCAR will require that before your paperwork can be processed. I would guess that it will be 2019 model year at this point. You may want to check with PACCAR to confirm.

Subject: EPA Small Business Glider Builder Provisions

Justin,

The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees - this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations - assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s).

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps.

For your reference here are a number links to regulations that are applicable:

Mr. Healy,

I am writing in regards to the requirements concerning assembly of Glider vehicles beginning for model year 2018. Crossroads Equipment Service, llc is incorporated in the State of Indiana, with one employee (myself), and no affiliations with any other entity. This meets the criteria for a small business listed in 40CFR 1037.150(c) and 13CFR 121.201. I have been self-employed since 2001. I built [REDACTED] with the exception of 2012 when I [REDACTED] I cannot build more than 8 in a year without hiring more help and building a new facility. I intend to do niether.

Ryan,

Basically you just need to update the previous letter you submitted. You can update employee counts, ownership changes. That's about it. You might want to check with your dealer as to what model rear trucks you can order next and include that in the letter. Please let me know if you have any further questions.

Subject: RE: Municipal Glider Purchase Request

Jason,

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

PACCAR Glider Vehicle Assembler Certification

Enter Company Name

Paul's Repair

(hereinafter referred to as "Glider Vehicle Assembler") certifies to PACCAR, Inc the information requested herein to assure compliance with 40 CFR 1037.635 and 1037.150 with respect to glider vehicles produced on or after January 1, 2018 from glider kits purchased from PACCAR Inc's Kenworth and Peterbilt divisions.

Glider Vehicle Assembler will complete the assembly of all designated glider kits provided by a division of PACCAR, Inc by installing all missing components to complete the assembly of the glider vehicle. This could include, but would not be limited to, the engine, transmission, rear axle(s), and exhaust components.

Glider Vehicle Assembler certifies that each engine (including remanufactured engines) installed in a completed glider vehicle utilizing a designated glider kit will be installed in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Volume Limitations Certification

Pursuant to 40 CFR 1037.150(t)(1), for calendar year 2018 through calendar year 2020, you may produce a limited number of exempt glider vehicles. The limit applies to the quantity of your combined yearly production of vehicles from all vehicle OEM glider kits, and is equal to your highest annual production of glider vehicles in any calendar year between 2010 to 2014, up to a maximum of 300. Glider vehicles you produce in excess of this limit must comply with 40 CFR 1037.635, which includes delegated assembly, and requires the engine installed to be a post-2010 emissions engine.

Glider Vehicle Assembler certifies that its highest annual production of glider vehicles between 2010 through 2014 for sale or use in the United States was: Enter Volume [REDACTED] in Year Circle One 2010 2011 2012 2013 2014

Glider Vehicle Assembler certifies that it sold at least one glider vehicle in calendar year 2014. Initial Here

PM**Small Manufacturer Status Certification**

Glider Vehicle Assembler certifies that it will be producing/assembling the requested exempt glider kits for sale or use in the United States. Glider Vehicle Assembler meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, the Glider Vehicle Assembler notified the Designated Compliance Officer of the U.S. EPA of its small business status for vehicle model year: Enter Model Year

2018

A copy of this reviewed and accepted notification is attached with this request. Initial Here

PM**Record Keeping and Reporting**

Glider Vehicle Assembler will be responsible for maintaining records of all glider vehicles they produce/assemble beginning in calendar year 2017. U.S. EPA may require reporting 2010 through 2014 volumes as well as current year produced/assembled glider vehicle volume as an end-of-year report.

Compliance Requirements

Vehicle Assembler acknowledges its understanding that the following are all violations of the Clean Air Act under 40 CFR 1068.101 and/or 1068.105, and subject to EPA enforcement and penalties outlined in §1068.101(b)(1):

- (1) Introducing vehicles into commerce in an uncertified configuration;
- (2) Failure to follow OEM instructions or otherwise make unauthorized changes;
- (3) Failure to keep records, send reports, or give EPA information as required under this part or the Clean Air Act; and
- (4) Exceeding vehicle volume limitations per 40 CFR 1037.150(t)(1) and not complying with 1037.635.

Instructions: E-mail the completed and signed form to KW.Marketing.GHG@PACCAR.com. Any questions may be sent to the same address.

Did John P Halliday Trucking Inc sell any gliders in 2014? To qualify as an exempt small business the glider exemption regulations (found in 40 CFR 1037.150(t)) require that the business had to have sold at least one glider in 2014. I have included an excerpt from the regulation and highlighted the specific requirement.

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

Justin,
Could you please add the model for the gliders you are interested in building? Freightliner and PACCAR both will ask for this. I believe 2019 is the model year that they are currently taking orders for.

Also I would like to confirm that Francis Diesel Services has sold at least one of the trucks built in 2010 through 2014 - please add the number of assembled gliders sold for each year.

Please let me know if you have questions.

To whom it may concern,

We are applying for a small business exemption for glider builders under the small business criteria listed in 13 CFR 121.201. We fall below the employee threshold for Heavy Duty Manufacturers. At Francis Diesel Service we have had 9 employees for the last 3 years. Affiliated companies include Francis Transportation of which has had 14 employees for the last 3 years and Francis Trucking of which has had 38 employees over the last 3 years. All companies are solely owned by Marsha Francis.

We have built [REDACTED] We built the [REDACTED] for customers not affiliated with us. We appreciate the opportunity to be able to continue to do business as a glider builder.

We are planning to order and build [REDACTED] calendar year (2019 build year). We will be ordering gliders from paccar.

Reviewed and Accepted

Subject: RE: Request to be a Small business glider assembler

Sharon,

Did A&R Transport Repair sell any of the gliders that they have assembled to another company or person in 2014? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that the small business had to have sold at least one glider to an outside party in 2014. The letter does not indicate if any gliders have been sold. Please see the excerpt from the regulation below

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

Thank you,

Robert,

Did Huisman Trucking sell any gliders in 2014? To qualify as an exempt small business the glider exemption regulations (found in 40 CFR 1037.150(t)) require that the business had to have sold at least one glider in 2014. I have included an excerpt from the regulation and highlighted the specific requirement.

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Subject: Glider Small Business Exclusion Information

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees - this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations - assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

Subject: RE: Glider Rules Change

Tyler,

At this point there has been no change in the glider rules. You can build gliders with older engines if you are a qualifying small business and have built gliders in the 2010 through 2014 timeframe and sold at least one glider in 2014. The EPA administrator and his office have proposed to change the glider rule so that there is no limitation on building gliders, but I do not know if or when that rule will go into effect. For more information on current requirements here is a standard email response I send to businesses interested in building gliders:

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Subject: EPA Small Business Provisions For Glider Builders
Attachments: Glider FAQ 2015.pdf

Doug,

Below is the email I send out to prospective glider builders:

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees - this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations - assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions - this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

Frequently Asked Questions about Heavy-Duty “Glider Vehicles” and “Glider Kits”

Brief answers to common questions about potential changes to how EPA and NHTSA regulate glider vehicles.

What are heavy-duty “glider vehicles” and “glider kits”?

The term “glider kit” is used in the heavy-duty vehicle industry to describe a chassis and cab assembly that is generally produced by a vehicle manufacturer without a new engine, transmission, or rear axle. A third party then typically installs a used engine, transmission, and/or rear axle to complete assembly of the vehicle. The terms “glider vehicle” or “glider” are typically used for the completed vehicles.

Historically, gliders have been used as a means to salvage valuable components, such as used engines, transmissions, and axles, from vehicles that were badly damaged in collisions. Gliders have been most popular for salvaging the components of the largest and most expensive class of heavy-duty vehicles (i.e. “Class 8”). More recently the agencies have observed a sharp increase in glider sales, which suggests that gliders are being used more and more as a loophole to avoid purchasing engines that meet 2010 EPA emission standards, and potentially to avoid NHTSA safety regulations.

As discussed below, because of different regulatory frameworks for safety and emissions, NHTSA and EPA have subtle but important differences in their regulatory definitions of glider kits. NHTSA defines a “glider kit” as motor vehicle equipment that primarily includes the chassis and cab, but generally does not include the engine or rear axles. NHTSA is considering new regulations that would focus only on the completed glider vehicles. EPA defines “glider kits” to include both the complete and incomplete vehicles and applies its regulations to both. (See 40 CFR 1037.801 of EPA’s proposed regulatory text.)

Are emissions from gliders a significant problem?

Most gliders manufactured today use remanufactured model year 2001 or older engines. Typically these engines have NO_x and particulate matter (PM) emissions

EPA-420-F-15-904
July 2015

20 to 40 times higher than today's clean diesel engines. Since 2010 when EPA's current NOx and PM standards for heavy duty engines took effect, glider sales have increased nearly 10-fold as compared to the 2004-2006 time frame.¹ EPA believes this increase reflects an attempt to avoid using engines that comply with EPA's 2010 standards, and is an attempt to circumvent the Clean Air Act's purpose to protect human health and the environment.

This increase in glider kit sales is a growing environmental concern. To give a sense of scale, annual glider sales now represent roughly 2% of the Class 8 vehicles manufactured annually, and yet may account for as much as **one-half** of total NOx and PM emissions from all new Class 8 vehicles. Put another way, at current production rates, the contribution of NOx and PM emissions from gliders alone would nearly **double** the emissions of these pollutants from the entire Class 8 fleet.

The figure below illustrates in a relative sense how the NOx and PM emissions from gliders have increased and how they compare to the rest of Class 8 sales. This figure is based on estimated current and historic glider production rates. The first bar represents the NOx and PM emissions that would result from 500 "pre-emission" gliders, which was a typical annual sales volume before model year 2007. It shows that 500 gliders emitting 40 times the NOx and PM would have the same total NOx and PM emissions as 20,000 fully compliant vehicles. The second bar represents the NOx and PM emissions from 5,000 model year 2014 "pre-emission" gliders. This second bar shows that just 5,000 of these gliders could emit as much NOx and PM as 200,000 fully compliant 2014 Class 8 tractors. For comparison, the third bar shows the NOx and PM emissions of 250,000 fully compliant model year 2014 Class 8 vehicles, which represents the typical annual production of fully compliant new Class 8 vehicles.

Figure 1 Growing Environmental Significance of Gliders

¹ Based on the following report that has been placed into the public docket for this rulemaking: "Industry Characterization of Heavy Duty Glider Kits", MacKay & Company, September 30, 2013.

Frequently Asked Questions

Does EPA consider glider kits to be new motor vehicles?

Yes. The Clean Air Act definition of “new motor vehicle” is not based on the condition of the parts assembled to create the vehicle but rather encompasses the entire vehicle. Thus, newly created gliders are “new motor vehicles” under the Clean Air Act, even if they incorporate some previously used components. Under this framework, glider kits are regulated by EPA the same as other incomplete new heavy-duty vehicles.

Some glider manufacturers and customers may attempt to circumvent this definition by retaining the Vehicle Identification Number (VIN) of the donor vehicle from which the used engine was obtained. However, this technicality does not mean that the new glider is actually the old vehicle.

When does NHTSA consider glider vehicles to be new motor vehicles?

NHTSA also determines whether or not a motor vehicle is “new” based on criteria other than its retention of a pre-existing VIN. NHTSA considers all completed glider vehicles to be new unless they have a transmission, engine, and drive axle that are not new, and at least two of those components are from the same “donor vehicle.” While NHTSA considers completed gliders to be motor vehicles, it does not consider glider kits (as it defines the term) to be motor vehicles. Rather, it considers glider kits to be “motor vehicle equipment.”

Are EPA and NHTSA proposing to ban gliders?

No, neither EPA nor NHTSA are proposing to ban gliders. EPA is clarifying which existing standards apply already to gliders, and is proposing new emissions requirements for certain gliders. NHTSA is considering setting similar standards for complete glider vehicles, but not for glider kits.

What is EPA proposing for gliders in this rulemaking?

In general, EPA is proposing three things:

- a. Clarifications to the existing HD Phase 1 EPA requirements for gliders.
- b. New requirements for most gliders to have engines installed that meet the same requirements as new emissions-compliant engines.
- c. Exceptions to the proposed new requirements for small businesses.

Each of these general areas is discussed further in related questions below.

- a. What are the existing EPA requirements for gliders, and how are these being clarified?

EPA is clarifying that gliders, because they are “new vehicles” under the Clean Air Act, are subject to EPA’s current HD Phase 1 GHG emission standards for new vehicles in 40 CFR part 1037, with some exemptions for small businesses. This means that glider vehicles not produced by small businesses are already required to comply with the HD Phase 1 vehicle standards.

Frequently Asked Questions

The current regulations (which are being revised) have not prohibited the use of older model engines, such as those that have been rebuilt or remanufactured for additional use. However, these engines have always had to comply with emissions standards applicable to their own model year of manufacture. In other words, EPA's regulations have allowed older engines to be installed into new glider kits, as long as they remained in their originally certified configuration.

b. What new EPA requirements are being proposed in the HD Phase 2 Notice of Proposed Rulemaking?

EPA is proposing new requirements beginning January 1, 2018 that would generally require engines installed in new gliders to meet the same requirements as new emissions-compliant engines – both for GHGs and for other harmful pollutants such as NO_x and PM. For example, if a glider was produced in 2020, it could use any engine that met the standards for model year 2020 engines. This could be an earlier model year engine that was originally subject to the same requirements, such as a model year 2018 engine.

Beginning in model year 2021, Phase 2 standards for heavy duty vehicles would also apply to gliders.

c. What are the exemptions for small businesses that manufacture gliders for model years 2018 and beyond?

The HD Phase 1 regulations currently include an exemption for small businesses from all of the HD Phase 1 requirements of 40 CFR part 1037. This exemption, which was included in the Phase 1 rulemaking as an interim provision, also covers glider manufacturers. We are proposing to end this blanket exemption on January 1, 2018.

In place of the blanket exemption, EPA is proposing limited grandfathering of existing small businesses that currently install the used engines and other used parts into gliders. Under these special provisions, existing small businesses would be allowed to continue their production up to 300 assembled gliders per year under the same type of exemption that covered them in HD Phase 1. Any additional gliders an existing small business would produce (beyond their existing production rates or beyond 300 per year, as applicable) would need to meet the new proposed requirements for both engines and vehicles. These grandfathering provisions for existing small businesses should allow this industry to produce enough gliders to address legitimate purposes (e.g., salvaging engines and other parts from damaged vehicles). However, manufacturers that have significantly ramped up glider production in recent years to avoid EPA's 2010 NO_x and PM engine standards and other requirements, may need to alter their business practices.

How did EPA develop this small business exemption?

Prior to issuing the proposal, EPA convened a formal panel with the Small Business Administration (SBA) and the Office of Management and Budget (OMB) to consider ways to minimize impacts on small businesses. As a central part of this process, EPA invited potentially affected small businesses to serve as Small Entity Representatives (SERs) that would help the panel to identify and address adverse impacts on small businesses. One of the SERs was a small

Frequently Asked Questions

manufacturer that assembled gliders. This manufacturer helped the panel to understand how this rule would impact small businesses that assemble gliders. Based in large part on this input, the panel recommended the exemption being proposed. The official Panel Report has been placed into the public docket for this rulemaking.

What are the existing NHTSA requirements for gliders, and is NHTSA considering adopting new provisions?

NHTSA does not currently consider glider kits or completed glider vehicles to be covered under NHTSA's HD Phase 1 standards. For completed glider vehicles, NHTSA is considering adopting requirements similar to EPA's proposed regulations. NHTSA would also consider special provisions for small business manufacturers consistent with the initial regulatory flexibility analysis that accompanies the rulemaking. NHTSA is not considering standards for glider kits (as NHTSA defines them).

Are EPA and NHTSA considering other options, and how can I provide new information to the agencies?

EPA is requesting comment on all of these proposed changes, and we may revise these provisions to offer more or less flexibility in the Final Rule. NHTSA is requesting comment on its consideration of similarly regulating completed glider vehicles, but not glider kits. Both agencies encourage commenters to provide data that would allow us to improve our proposal. See the notice for instructions on providing comments at:

Re: Model Year 2019/Calendar Year 2018 Request for Small Business Exemption as a Glider Vehicle Assembler Pursuant to 40 C.F.R. § 1037.150(c) and (t)

Pursuant to C.F.R. § 1037.150, Thompson Machinery Commerce Corporation ("Thompson") hereby gives notice of its plans to utilize the small business exemption under 40 C.F.R. § 1037.150(t) for model year 2019/calendar year 2018.

Thompson certifies that it qualifies as a small business per 13 C.F.R. § 121.201 and is classified as Heavy Duty Truck Manufacturing NAICS Code 336120 Subsector 336 – Transportation Equipment Manufacturing because Thompson, including its related entities, has fewer than 1,500 employees. Thompson employment figures for the years ended December 31, 2014, 2015 and 2016 along with 2017 (as of the date of this letter) are set forth below.

Employees

Year	Quantity
2014	458
2015	525
2016	550
2017	646

Thompson's annual U.S.-directed production volume and sales of glider vehicles for calendar years 2010 through 2014 are set forth below.

Glider Vehicle Production

Year	Assembled	Sales (if different)
2014		
2013		

2012				
2011				
2010				

Based on the information provided above, our maximum annual exempt glider vehicle production for this model year is 2019/calendar year 2018 is [REDACTED]

Please confirm that this request is acceptable and that Thompson has met all the requirements for the small business exemption as a glider vehicle assembler pursuant to 40 C.F.R. § 1037.150(t)(1) .

Thank you for your assistance.

Subject: EPA Glider Regulations

Tyler,

There are two primary regulation sections that cover gliders. The first one involves provisions for small businesses which is what you are most interested in and allows the limited use of older non-emission engines. This section is 40 CFR 1037.150(t) and here is a link to this section:

https://www.ecfr.gov/cgi-bin/retrieveECFR?gp=&SID=6b11384b15e7e5b2a49644ec130dfbf2&mc=true&n=pt40.36.1037&r=PART&ty=HTML#se40.36.1037_1150

Here is an excerpt from that section specific to our discussion:

§1037.150 Interim provisions.

(t) Glider kits and glider vehicles. (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

(ii) In a given calendar year, you may produce up to 300 exempt vehicles under this section, or up to the highest annual production volume you identify in paragraph (t)(1) of this section, whichever is less.

(iii) Identify the number of exempt vehicles you produced under this exemption for the preceding calendar year in your annual report under §1037.250.

(iv) Include the appropriate statement on the label required under §1037.135, as follows:

(A) For Phase 1 vehicles, "THIS VEHICLE AND ITS ENGINE ARE EXEMPT UNDER 40 CFR 1037.150(t)(1)."

(B) For Phase 2 vehicles, "THE ENGINE IN THIS VEHICLE IS EXEMPT UNDER 40 CFR 1037.150(t)(1)."

(v) If you produce your glider vehicle by installing remanufactured or previously used components in a glider kit produced by another manufacturer, you must provide the following to the glider kit manufacturer prior to obtaining the glider kit:

(A) Your name, the name of your company, and contact information.

(B) A signed statement that you are a qualifying small manufacturer and that your production will not exceed the production limits of this paragraph (t)(1). This statement is deemed to be a submission to EPA, and we may require the glider kit manufacturer to provide a copy to us at any time.

(vi) *This exemption is valid for a given vehicle and engine only if you meet all the requirements and conditions of this paragraph (t)(1) that apply with respect to that vehicle and engine. Introducing such a vehicle into U.S. commerce without meeting all applicable requirements and conditions violates 40 CFR 1068.101(a)(1).*

(vii) *Companies that are not small manufacturers may sell uncertified incomplete vehicles without engines to small manufacturers for the purpose of producing exempt vehicles under this paragraph (t)(1), subject to the provisions of §1037.622. However, such companies must take reasonable steps to ensure that their incomplete vehicles will be used in conformance with the requirements of this part 1037.*

(2) *Glider vehicles produced using engines certified to model year 2010 or later standards for all pollutants are subject to the same provisions that apply to vehicles using engines within their useful life in §1037.635.*

(3) *For calendar year 2017, you may produce a limited number of glider kits and/or glider vehicles subject to the requirements applicable to model year 2016 glider vehicles, instead of the requirements of §1037.635. The limit applies to your combined 2017 production of glider kits and glider vehicles and is equal to your highest annual production of glider kits and glider vehicles for any year from 2010 to 2014. Any glider kits or glider vehicles produced beyond this cap are subject to the provisions of §1037.635. Count any glider kits and glider vehicles you produce under paragraph (t)(1) of this section as part of your production with respect to this paragraph (t)(3).*

The second section (40 CFR 1037.635) of regulations cover gliders built using newer engines:

Subject: RE: EPA Notification - Gotwals Brothers LLC

Dennis,

Has Gotwals Brothers LLC sold any of the gliders that they have assembled to another company or person in 2014? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party in 2014. The letter does not indicate if any gliders have been sold. You should review your records to see if any gliders were sold in 2014. Please see the excerpt from the regulation below:

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

Thanks. do I need our company name on it and also is the date of manufacture needed?

On 12/11/2017 10:58 AM, Healy, Stephen wrote:

Alan,

The label requirement currently for a glider is found in the regulation section below:

§1037.150 Interim provisions.

(t)(1)(iv) Include the appropriate statement on the label required under §1037.135, as follows:

(A) For Phase 1 vehicles, "THIS VEHICLE AND ITS ENGINE ARE EXEMPT UNDER 40 CFR 1037.150(t)(1)."

Please let me know if you have further questions.

Thank you,

PACCAR Glider Vehicle Assembler Certification

Enter Company Name

Nystrom Trucking

(hereinafter referred to as "Glider Vehicle Assembler") certifies to PACCAR, Inc the information requested herein to assure compliance with 40 CFR 1037.635 and 1037.150 with respect to glider vehicles produced on or after January 1, 2018 from glider kits purchased from PACCAR Inc's Kenworth and Peterbilt divisions.

Glider Vehicle Assembler will complete the assembly of all designated glider kits provided by a division of PACCAR, Inc by installing all missing components to complete the assembly of the glider vehicle. This could include, but would not be limited to, the engine, transmission, rear axle(s), and exhaust components.

Glider Vehicle Assembler certifies that each engine (including remanufactured engines) installed in a completed glider vehicle utilizing a designated glider kit will be installed in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Volume Limitations Certification

Pursuant to 40 CFR 1037.150(t)(1), for calendar year 2018 through calendar year 2020, you may produce a limited number of exempt glider vehicles. The limit applies to the quantity of your combined yearly production of vehicles from all vehicle OEM glider kits, and is equal to your highest annual production of glider vehicles in any calendar year between 2010 to 2014, up to a maximum of 300. Glider vehicles you produce in excess of this limit must comply with 40 CFR 1037.635, which includes delegated assembly, and requires the engine installed to be a post-2010 emissions engine.

Glider Vehicle Assembler certifies that its highest annual production of glider vehicles between 2010 through 2014 for sale or use in the United States was: Enter Volume [REDACTED] in Year Circle One **2010** **2011** **2012** **2013** **2014**

Glider Vehicle Assembler certifies that it sold at least one glider vehicle in calendar year 2014. Initial Here

CN

Small Manufacturer Status Certification

Glider Vehicle Assembler certifies that it will be producing/assembling the requested exempt glider kits for sale or use in the United States. Glider Vehicle Assembler meets the criteria referenced in 40 CFR 1037.150(e) and found in 13 CFR 121.201 for a small business. As such, the Glider Vehicle Assembler notified the Designated Compliance Officer of the U.S. EPA of its small business status for vehicle model year: Enter Model Year

2018

A copy of this reviewed and accepted notification is attached with this request. Initial Here

CN

Record Keeping and Reporting

Glider Vehicle Assembler will be responsible for maintaining records of all glider vehicles they produce/assemble beginning in calendar year 2017. U.S. EPA may require reporting 2010 through 2014 volumes as well as current year produced/assembled glider vehicle volume as an end-of-year report.

Compliance Requirements

Vehicle Assembler acknowledges its understanding that the following are all violations of the Clean Air Act under 40 CFR 1068.101 and/or 1068.105, and subject to EPA enforcement and penalties outlined in §1068.101(b)(1):

- (1) Introducing vehicles into commerce in an uncertified configuration;
- (2) Failure to follow OEM instructions or otherwise make unauthorized changes;
- (3) Failure to keep records, send reports, or give EPA information as required under this part or the Clean Air Act; and
- (4) Exceeding vehicle volume limitations per 40 CFR 1037.150(t)(1) and not complying with 1037.635.

Instructions: E-mail the completed and signed form to PB.GHG.Sales.Plan.Management@PACCAR.com. Any questions may be sent to the same address.

Joseph,
We're almost there. You indicated that all the gliders built by Paul's Repair were for customers. On the letter the "Glider Vehicle Production" information shows the number assembled in 2014 and 2013 but shows [REDACTED] for sales. The sales column should reflect the number of gliders sold or the number assembled for customers. Gliders assembled for use by Paul's Repair would not count. Can you please make sure this is corrected and resend? Thank you for your patience.

Sent: 2/2/2018 3:03:11 PM
To: 'Harry Powers' [hpowers@pennfreightliner.com]
Subject: RE: Art Collins Inc

The regulation that cover gliders are primarily in two sections of the regulations:

40 CFR 1037.150(t) - This specifically covers provisions for small business:

https://www.ecfr.gov/cgi-bin/text-idx?SID=95423df16fa7b62fc38bbbb0bfbe581f&mc=true&node=pt40.36.1037&rgn=div5#se40.36.1037_1150

40 CFR 1037.635 - This covers the more general glider regulations:

https://www.ecfr.gov/cgi-bin/text-idx?SID=95423df16fa7b62fc38bbbb0bfbe581f&mc=true&node=pt40.36.1037&rgn=div5#se40.36.1037_1635

Here is an excerpt from 40 CFR 1037.150(t) discussing small business qualification requirements:

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

(ii) In a given calendar year, you may produce up to 300 exempt vehicles under this section, or up to the highest annual production volume you identify in paragraph (t)(1) of this section, whichever is less.

Steven; Freightliner has verbiage that says you can not assemble a glider for your own use . In the case of Mr Collins he has a vehicle service company that he owns putting the Vehicle together. But he owns both companies . In our conversation this morning you said it really didn't say that you couldn't be the user also . Just that he had sold one in the past and number assembled . Please send what you have on that . I will pass it on to clarify Thank Harry Powers

This letter serves as notification of the intent of TTP, Inc. to utilize the small business provision to build gliders.

TTP, Inc. meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. The number of employees for the past three years is as follows:

- 2017 – 25
- 2016 – 25
- 2015 – 22

TTP, Inc. is owned by Don and Doug Dickerhoff with a 50-50 split of ownership. TTP, Inc. is not affiliated with any other companies.

The following gliders were built by TTP, Inc.:

- 2014 - [REDACTED]
- 2013 - [REDACTED]
- 2012 - [REDACTED]
- 2011 - [REDACTED]
- 2010 - [REDACTED]

To: 'Al Denning' [Al.Denning@PACCAR.com]
Subject: RE: Scott's Hauling Small Business Exemption....

Al,

It looks like Scott's Hauling qualifies as a small business, but if they did not build a glider in 2010 - 2014 then they would not be allowed to build up a glider using an engine older than 2010 model year.

Here is the regulation section:

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section

Please let me know if you have any questions.

Subject: Scott's Hauling Small Business Exemption....

Stephen good morning, I have a question on this one. In my discussions with the dealer it has come to my attention that Scott's Hauling did not sell nor did they did assemble a glider for sell in 2014. That is the rule in order for them to even qualify for 2018 build correct?

I noticed on the form they said they submitted that they gave you no build info, in fact the last paragraph on the letter you stamped says they built one glider in 2016?

They are trying to order a glider for a wreck replacement, the original chassis was built in 2001 and the engine has over 500K miles. My communication with them has been that we cannot approve the build as this not within Useful Life 1037.635 (C)(1)(i). It has also been my communication that Scott's Hauling does not qualify as an approved Exempt Builder in 2018.

Can you help me clarify please?

Dear Mr. Healey,

This letter is to notify the EPA that we intend to utilize the small business provisions as our company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201.

Ownership Structure as follows:

Gary Daigle, President, owns 50% of Daigle & Houghton, Inc.

Greg Daigle, Vice President, owns 50% of Daigle & Houghton, Inc.

The total number of employees for the past three (3) years as follows:

- 2015 - 66
- 2016 - 66
- 2017 - 72

Our company has built gliders for the years 2010 through 2014 as follows:

- 2010
- 2011
- 2012
- 2013
- 2014

President
Daigle & Houghton, Inc.

Harold,

Thank you for your notification letter. There are a few items you'll need to add:

- . State the ownership of the company. Who owns the company and what percentage.
- . State if there are any affiliations with other companies.
- . The number of gliders you built each calendar year for 2010 through 2014.

Please make these additions and I will return a copy of your letter stamped "Received and Accepted" .

Please let me know if you have any questions.

Subject: Notification of Small Business Qualification Under NAICS 336120

Dear Mr. Healy:

This letter is meant to serve as notification that B5 Technologies, DBA Kustom Truck, qualifies as a small business under 13 CFR 121.201 for NAICS code 336120 for Heavy Duty Truck Manufacturing. As a qualifying small manufacturer, B5 Technologies will be supply glider build packages for vehicle model year 2018 that will be excluded from the greenhouse gas standards of 1037.104 through 1037.106 under 40 CFR 1037.150(c).

The ownership of the company is as follows:

1) Harold R. Bettencourt	70%
2) Harold R. Bettencourt 3 rd	7.5%
3) Nicholas R. Bettencourt	7.5%
4) Peter T. Bettencourt	7.5%
5) Bryan S. Bettencourt	7.5%

The only other affiliations is Kustom Truck which is a DBA of B5 Technologies, LLC

Glider build packages from 2010-2014:

- 1) 2010 calendar year
- 2) 2011 calendar year
- 3) 2012 calendar year
- 4) 2013 calendar year
- 5) 2014 calendar year

The following represents the number of employees B5 Technologies has employed for the last 3 calendar years.

2014 – 10
2015 – 13

B5 Technologies, Inc.
1084 South 5th Street
Coos Bay, Oregon 97420

Phone: 541.267.6990

REVIEWED AND APPROVED

DATE 2/3/17

Dear Mr. Healy,

K.A. Pazdera Hauling, LLC is notifying you to request small business exemption status as a Glider Vehicle Assembler. K.A. Pazdera Hauling, LLC has employed between 10-35 employees within the past 3 years and currently has 30 full time employees. Joyce E. Pazdera is the sole owner of the business. K.A. Pazdera Hauling, LLC has built the following gliders between 2010-2014:

2010- [REDACTED]
2011- [REDACTED]
2012- [REDACTED]
2013- [REDACTED]
2014- [REDACTED]

Thank you for your help regarding this matter and please let me know if you need any other information.

Sincerely,

Joyce Pazdera (owner)

To: Healy, Stephen <healy.stephen@epa.gov>
Subject: RE: Request to be a Small business glider assembler

AA&S Corporation and A&R Transport, Inc. have their own tax ID#'s and are separate entities. AA&S Corporation built the trucks and leased them to A&R Transport, Inc. (I had that information wrong on the previous email I sent to you.) So our Small business glider assembler License would actually need to be under AA&S Corporation 3310 W 2600 N Brigham City, UT 84302 not A&R Transport, Inc.
 AA&S Corporation has been in business since 1980 and A&R Transport, Inc. has been in business since 1988. We have been building gliders for over 25 years. The main reason for building gliders for us is getting the Configuration we need for our operation-Axle spacing, Length, Fuel capacity, etc.

We built in

Each Glider was used as a leased vehicle by A&R Transport, Inc. for a while and then Sold.

Sold to Dairyway Tremonton, UT 2012
 Sold to Roy's Truck Rowlett, TX 2013
 Sold to Bouma Truck Sales, Choteau, MT 2014
 Sold to Bouma Truck Sales, Choteau, MT 2015
 Sold to Bouma Truck Sales, Choteau, MT 2016
 Sold to Bouma Truck Sales, Choteau, MT 2017

We are currently working on bids from Peterbilt and Kenworth in Salt Lake City, UT.

Thanks
Sharon Lancaster
 A&R Transport, Inc.

On 3/22/2018 7:47:05 AM, Healy, Stephen <healy.stephen@epa.gov> wrote:

Sharon,

The regulations require that A&R have sold at least one glider to an unrelated entity in 2014. The letter shows that [REDACTED] were built in the 2011 through 2014 timeframe. Also AA&S Corporation appears to be an affiliate of A&R Transport as they share the same business address. What brand of gliders is A&R intending to build – PACCAR (Peterbilt and Kenworth) or Daimler (Freightliner or Western Star)?

Thank you,

Steve Healy

Sharon,

Did A&R Transport Repair sell any of the gliders that they have assembled to another company or person in 2014? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party in 2014. The letter does not indicate if any gliders have been sold. Please see the excerpt from the regulation below

§1037.150 Interim provisions.

(t) Glider kits and glider vehicles.

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

Thank you,

Stephen Healy

Chris,

To qualify for the EPA small business glider regulation provisions you must have sold at least one glider to another company in 2014. The small business glider regulations are in 40 CFR 1037.150(t). Here is an excerpt from the regulation that clearly states this:

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Here is a link to the complete regulation section if you would like to read it.

Subject: RE: request for Small Business Exemption

Greg,
Did Steve Henderschiedt Trucking Inc sell a glider in 2014? The EPA small business glider builder exemption regulations (see 40 CFR 10337.150(t)) list several requirements to qualify for the exemption. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and must have sold at least one to another company or person in 2014. Here is an excerpt from the regulation:

§1037.150 Interim provisions

(t) Glider kits and glider vehicles. (1) Glider vehicles conforming to the requirements in this paragraph (t)(1)

are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Chris,

To qualify for the EPA small business glider regulation provisions you must have sold at least one glider to another company in 2014. The small business glider regulations are in 40 CFR 1037.150(t). Here is an excerpt from the regulation that clearly states this:

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Here is a link to the complete regulation section if you would like to read it.

To: 'Greg Larson' [greg@larsontrucks.com]
Subject: RE: request for Small Business Exemption

Are the two companies separate? Is one a subsidiary of the other? The reason I ask this is the regulation specifically say that to qualify for the EPA exemption the small business must not have built gliders solely for their own use. Here is an excerpt from the regulation:

§1037.150 Interim provisions

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Here is a link to the Code of Federal Regulations section for the small business glider builder exemption (40 CFR 1037.150(t):

Subject: RE: request for Small Business Exemption

Greg,

Did Steve Henderschiedt Trucking Inc sell a glider in 2014? The EPA small business glider builder exemption regulations (see 40 CFR 10337.150(t)) list several requirements to qualify for the exemption. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and must have sold at least one to another company or person in 2014. Here is an excerpt from the regulation:

§1037.150 Interim provisions

(t) Glider kits and glider vehicles. (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

To: 'Greg Larson' [greg@larsontrucks.com]
Subject: RE: request for Small Business Exemption

Greg,
 Did Steve Henderschiedt Trucking Inc sell a glider in 2014? The EPA small business glider builder exemption regulations (see 40 CFR 10337.150(t)) list several requirements to qualify for the exemption. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and must have sold at least one to another company or person in 2014. Here is an excerpt from the regulation:

§1037.150 Interim provisions
 (t) Glider kits and glider vehicles. (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.
 (i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Al,

Also it looks like TruckServ is affiliated with Ursa Logistics and/or Ursa Major Corp. The employee count shows only 11 employees. This number seems rather low for a company with a corporate office and two service locations. The employee count must include the employees of affiliated companies. To qualify for the EPA small business exclusion a company must be below 1500 employees. For your reference here are links to the applicable Small Business Administration regulations;

Small Business Size Regulations:

https://www.ecfr.gov/cgi-bin/text-idx?SID=13b9be9f38a5bc1c83a4b85b7112d49f&mc=true&tpl=/ecfrbrowse/Title13/13cfr121_main_02.tpl

Dear Mr. Healy:

This letter is sent to you because we intend to utilize the small business provisions. This is to state that my company, Wagoner Bros. Repair, meets the small business criteria per 13 CFR 121 and is classified as Heavy Duty Truck Manufacturing NAICS Code 336120 Subsector 336-Transportation Equipment Manufacturer per 13 CFR 121.201. We have 6 employees and have so for the last 5 years.

In the past we have built the following number of gliders:

2010-
2011-
2012-
2013-
2014-

If there are any questions, please call 641-394-5600 and ask for Linn Wagoner.

REVIEWED AND ACCEPTED

12/21/16

Dear Mr. Healy,

Jerseyville Truck Repair, LLC is notifying you to request small business exemption status as a Glider Vehicle Assembler. JTR has employed between 2-4 employees within the past 3 years and currently has 4 full-time employees. Richard D. Darr is the sole owner of the business and has no other company affiliations. Jerseyville Truck Repair has built the following gliders between 2010- 2014:

- 2010
- 2011
- 2012
- 2013
- 2014

Thank you for your help regarding this matter and please let me know if you need any other information.

Sincerely,

Richard Darr (Owner)

Subject: RE: TruckServ SBE

Al,
Also it looks like TruckServ is affiliated with Ursa Logistics and/or Ursa Major Corp. The employee count shows only 11 employees. This number seems rather low for a company with a corporate office and two service locations. The

employee count must include the employees of affiliated companies. To qualify for the EPA small business exclusion a company must be below 1500 employees. For your reference here are links to the applicable Small Business Administration regulations;

Small Business Size Regulations:

https://www.ecfr.gov/cgi-bin/text-idx?SID=13b9be9f38a5bc1c83a4b85b7112d49f&mc=true&tpl=/ecfrbrowse/Title13/13cfr121_main_02.tpl

Calculating Number of Employees:

https://www.ecfr.gov/cgi-bin/text-idx?SID=13b9be9f38a5bc1c83a4b85b7112d49f&mc=true&node=se13.1.121_1106&rgn=div8

How Affiliation is Determined:

https://www.ecfr.gov/cgi-bin/text-idx?SID=13b9be9f38a5bc1c83a4b85b7112d49f&mc=true&node=se13.1.121_1103&rgn=div8

Cathy,

Thank you for your notification letter. There are a few items you'll need to add:

- State the ownership of the company. Who owns the company and what percentage.
- State if there are any affiliations with other companies.
- The number of gliders you built each calendar year for 2010 through 2014.

Please make these additions and I will return a copy of your letter stamped "Received and Accepted" .

Please let me know if you have any questions.

REVIEWED AND ACCEPTED

12/22/16

For 2017

Dear Mr. Healy,

Jerseyville Truck Repair, LLC is notifying you to request small business exemption status as a Glider Vehicle Assembler. JTR has employed between 2-4 employees within the past 3 years and currently has 4 full-time employees. Richard D. Darr is the sole owner of the business and has no other company affiliations. Jerseyville Truck Repair has built the following gliders between 2010- 2014:

- 2010
- 2011
- 2012
- 2013
- 2014

Thank you for your help regarding this matter and please let me know if you need any other information.

Sincerely,

Richard Darr (Owner)

Subject: EPA Small Business Notification Letter Information

Calvin,

From our discussion It sounds as though your company would qualify as a small business. To utilize the small business exclusion the regulation requires a notification letter to the EPA. This letter will satisfy the requirements of 1037.150(c). A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) The size threshold for Heavy Duty Truck Manufacturers appears to be 1500 employees - this is what is listed for NAICS Code 336120.
- State who owns the company and if there are multiple owners state each owner and the percentage ownership for each. Also state whether or not the company is not affiliated with any other company. If there is an affiliation state what that is.
- State the number of employees for each of the past 3 years (this total number of employees should include affiliated companies).
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

It's quickest for us if you can scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above if that helps. Don't need anything fancy. You can use the stamped EPA reviewed copy for proof to PACCAR or Daimler that you meet the EPA small business requirements.

Here is a link to the regulations if you are interested. The specific sections for small business and gliders are 1037.150(c) - small business, 1037.150(t) Interim Glider Provisions, 1037.635 - Glider Provisions:

Need your guidance here Stephen, can you review Brian's comments and the attached. Can he indeed file an SBE under a different name or is the fact that he has ownership of all of them precluding that his original allocation limit needs to be enforced without adding a new Assembler code and allocation limit?

Thanks in advance!

These were two different companies. We purchased Westman Freightliner in 2015 as a stock purchase, separate entity and Westman also did glider kits. These should be treated as separate companies.

Thanks

Subject: RE: glider letter

Randy,

Has Westlie Truck Center of Dickson sold any of the gliders that they have assembled to another company or person? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party. The letter does not indicate if any gliders have been sold. You should review your records to see if any gliders were sold in 2014. Please see the excerpt from the regulation below:

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

healy.stephon@epa.gov

Pfab Trucking authorization to utilize the small business exclusion requirements of 1037.150(c) to continue assembling semi-tractor glider kits with pre-emission engines manufactured prior to 2007.

Pfab Trucking meets the small business criteria listed in 40 CFR 1037.150 (c) and 13 CFR 121.201. Pfab Trucking was founded in 2007 by A.J. Pfab. He retains 100% ownership of the company. Pfab Trucking is not affiliated with any other company.

Pfab Trucking has maintained eight full-time employees each year since 2013 and five employees from 2010 to 2012.

Pfab Trucking

Sent: 2/27/2018 6:03:35 PM
To: jeannie@dieselpower-reman.com
Subject: EPA Small Business Provisions for Glider Builders

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

Joseph,
The letter (page 1) is missing the applicable model year - PACCAR will request that be added. You may want to check if 2018 gliders are still available. The company name, address and contact information must be included as part of the letter. The first page is the only one applicable for the EPA small business notification

Please contact me if you have any questions.

Thank you,

Attention Stephen!

On Tuesday, December 5, 2017, 10:26:47 AM EST, Healy, Stephen <healy.stephen@epa.gov> wrote:

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.

- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

RE: Notification of Small Business Exemption for Glider Vehicle Assembler

Mr. Healy

Empire Truck Sales qualifies as a small business for NAICS Code 336120 and therefore is excluded from the greenhouse gas standards of §§ 1037.105 and 1037.106 for 2018. Empire is wholly owned by G&S Holdings, LLC which is owned by Gerald S. Swanson (25%), Gerald S. Swanson, Jr. (25%) and Jason S Greener (50%). Stribling Equipment, LLC is a commonly owned affiliate company.

Empire qualifies as a small business and currently has 324 employees. For the past three years Empire has averaged 318 (2017), 316 (2016), and 286 (2015) employees. Total average employee for both companies' combined is 672 today and has averaged 629 since 2015.

The number of gliders that Empire has assembled and/or sold is detailed below for year 2010 through 2014:

2010	
2011	
2012	
2013	
2014	

Please accept this as our notification for 2018.

Sincerely

Gerald S. Swanson

Gerald S. Swanson, Jr.

Jason S. Greener

Subject: RE: Compliance letter

Has Biehl's Truck Repair sold any of the gliders that they have assembled to another company or person? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party. The letter does not indicate if any gliders have been sold. Please see the excerpt from the regulation below

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

Nolt Carriers LLC – Glider Kit letter of Notification

I, Aaron Nolt Jr. , started my own business in 1990, at the age of 19, when I bought my first tractor-trailer truck. I started totally on my own, and still today I am the sole owner of my business. I have no affiliations with any other companies. As the years passed I hired more employees one by one. Some employees to drive truck hauling Ag commodity products, and other employees to work in our truck repairs garage. We repair our own trucks and trailers, and also do repairs for other customers. We parts out old equipment, but also fix up used trucks and sell them again. I along with my mechanic employees, put together our first glider kit in the year 2010. Between the years 2010 thru 2016 w [REDACTED] year. But in 2017 we [REDACTED] and needed to use our glider certification in order to re title the truck. We built [REDACTED] our own company, but mostly for other customers. On Jan. 1st 2017 we did a name change to -Nolt Carriers LLC-, we kept the same address, and the same DOT number. In the year 2014 I had 5 employees, in 2015 I had 6 employees, in 2016 I had 7 employees, and this year my company has 8 employees.

If you have any questions concerning my company please give me a call at 717-278-2635, or an email to aaronnoltjr@yahoo.com .

Subject: RE: Glider kit letter

Bret,
 Has Tom Nehl Truck Company sold any gliders to outside parties? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party. There is no indication in the attached letter as to sales of gliders. Please see the excerpt from the regulation below.

§1037.150 Interim provisions.

(t) Glider kits and glider vehicles.

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Here is a web link to the section of regulations, 40 CFR 1037.150(t):

https://www.ecfr.gov/cgi-bin/retrieveECFR?gp=&SID=dd999ef3d73beaa8f97f8c57bf98efa1&mc=true&n=pt40.36.1037&r=PART&ty=HTML#se40.36.1037_1150

Jim,
Are intending to purchase PACCAR gliders? If so you will need to enter the model year you will be acquiring near the top of the letter. Most likely they will be 2019 model year. You should check with your dealer to confirm.

Subject: RE: Your EPA Inquiry RE: Glider kit vehicles

Angelo,

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

Dear Mr. Healy

This letter is to notify EPA that we intend to utilize the small business provisions as our company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria in 13 CFR 121.201.

Ownership structure as follows:

Steven N. Bacalis owns 100% of Tom Nehl Truck Company.

The total numbers of employees (including affiliates the past (3) years as follows:

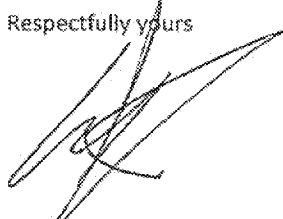

- 2015 212 employees
- 2016 217 employees
- 2017 220 employees

Tom Nehl Truck Company has built gliders for the years 2010-through 2014 as follows:

- 2010
 - 2011
 - 2012
 - 2013
 - 2014
- 

Please let me know if you have any questions or comments.

Respectfully yours

Brent,

The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s).

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps.

For your reference here are a number links to regulations that are applicable:

Subject: Michael Whitemarsh - glider vehicle assembler

Attached is a corrected Request for Small Business Exemption as a Glider Vehicle Assembler for Michael Whitemarsh. The model year should have been 2019. This assembler only listed his maximum production year, but confirmed via e-mail that he assembled at least one glider kit for a third party in 2014. I have initialed both corrections.

Thank you,

Subject: RE: Glider assembler exemption

Brent,

The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty

Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).

- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s).

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps.

For your reference here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions – this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

Subject: EPA Glider Builder Information

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees - this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations - assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

Subject: RE: Glider builder notification

Andrew,

Has Express Carriers Corp sold any of the gliders that they have assembled to another company or person in 2014? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party in 2014. The letter does not indicate if any gliders have been sold. You should review your records to see if any gliders were sold in 2014. Please see the excerpt from the regulation below:

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

Thank you,

A PACCAR COMPANY

Written Request for Shipment of Exempt Glider Kit to Glider Vehicle Assembler with a Small Business Exemption

Enter Company Name

CHANCE 2 TRANSPORT, LTD

(hereinafter referred to as "Requestor"), pursuant to the requirements found in 40 CFR 1037.150(t)(1), is submitting this written request to Peterbilt Motors Company to build and deliver the following Peterbilt glider kit(s). Please complete the table below.

Requested Glider Kit: (use second page for more than one)

Chassis Number	Ordering Dealer	Customer Name ¹	Replacement Vehicle VIN ¹	Engine Model Year ¹	Engine Mileage ¹
	A062	CHANCE 2 TRANSPORT LTD			

Requestor will complete assembly of the glider kit(s) by installing all missing components. This could include, but not limited to, the engine, transmission, rear axle(s), and exhaust/aftertreatment components. The vehicle(s), once assembly is complete, will be exempt from the requirements of 40 CFR 1037. All engines used in glider vehicles (including remanufactured engines) must be in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Small Business Status

Requestor meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, Requestor has notified the Designated Compliance Officer of the U.S. Environmental Protection Agency (EPA) as required in 40 CFR 1037.150(t)(1)(i). Requestor certifies that a copy of the reviewed and accepted notification for this model year has been previously provided to PACCAR Inc.

Production Limits

Requestor certifies that production will not exceed the production limits of 40 CFR 1037.150(t)(1) and that it sold at least one glider vehicle in calendar 2014.

Labeling

Requestor understands that the requested glider kit will contain a Greenhouse Gas Emissions label indicating that the vehicle and its engine are exempt in accordance with §1037.150(t)(1). This label must remain affixed to the vehicle and not removed by the glider vehicle assembler.

Instructions: E-mail the completed and signed form to PB.GHG.Sales.Plan.Management@PACCAR.com. Once received, Peterbilt will review the information to ensure accuracy. If Peterbilt determines that the requested glider kit requires the application of alternative regulations, a Peterbilt representative will contact Requestor to outline additional requirements and obtain needed information.

Requestor acknowledges that submission of this form is deemed to be a submission to EPA and California Air Recourse Board if applicable, and that Peterbilt Motors Company may provide a copy to the Agencies.

1700 WOODBROOK STREET DENTON, TEXAS 76205-7864 940-691-4000
P.O. BOX 90208 DENTON, TEXAS 76202-5208

PACCAR Glider Vehicle Assembler Certification

Enter Company Name

CHANCE 2 TRANSPORT, LTD

(hereinafter referred to as "Glider Vehicle Assembler") certifies to PACCAR, Inc the information requested herein to assure compliance with 40 CFR 1037.635 and 1037.150 with respect to glider vehicles produced on or after January 1, 2018 from glider kits purchased from PACCAR Inc's Kenworth and Peterbilt divisions.

Glider Vehicle Assembler will complete the assembly of all designated glider kits provided by a division of PACCAR, Inc by installing all missing components to complete the assembly of the glider vehicle. This could include, but would not be limited to, the engine, transmission, rear axle(s), and exhaust components.

Glider Vehicle Assembler certifies that each engine (including remanufactured engines) installed in a completed glider vehicle utilizing a designated glider kit will be installed in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Volume Limitations Certification

Pursuant to 40 CFR 1037.150(t)(1), for calendar year 2018 through calendar year 2020, you may produce a limited number of exempt glider vehicles. The limit applies to the quantity of your combined yearly production of vehicles from all vehicle OEM glider kits, and is equal to your highest annual production of glider vehicles in any calendar year between 2010 to 2014, up to a maximum of 300. Glider vehicles you produce in excess of this limit must comply with 40 CFR 1037.635, which includes delegated assembly, and requires the engine installed to be a post-2010 emissions engine.

Glider Vehicle Assembler certifies that its highest annual production of glider vehicles between 2010 through 2014 for sale or use in the United States was: Enter Volume [REDACTED] in Year Circle One **2010 2011 2012 2013 2014**

Glider Vehicle Assembler certifies that it sold at least one glider vehicle in calendar year 2014. Initial Here

R2M**Small Manufacturer Status Certification**

Glider Vehicle Assembler certifies that it will be producing/assembling the requested exempt glider kits for sale or use in the United States. Glider Vehicle Assembler meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, the Glider Vehicle Assembler notified the Designated Compliance Officer of the U.S. EPA of its small business status for vehicle model year: Enter Model Year

2018

A copy of this reviewed and accepted notification is attached with this request. Initial Here

R2M**Record Keeping and Reporting**

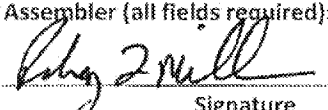

Glider Vehicle Assembler will be responsible for maintaining records of all glider vehicles they produce/assemble beginning in calendar year 2017. U.S. EPA may require reporting 2010 through 2014 volumes as well as current year produced/assembled glider vehicle volume as an end-of-year report.

Compliance Requirements

Vehicle Assembler acknowledges its understanding that the following are all violations of the Clean Air Act under 40 CFR 1068.101 and/or 1068.105, and subject to EPA enforcement and penalties outlined in §1068.101(b)(1):

- (1) Introducing vehicles into commerce in an uncertified configuration;
- (2) Failure to follow OEM instructions or otherwise make unauthorized changes;
- (3) Failure to keep records, send reports, or give EPA information as required under this part or the Clean Air Act; and
- (4) Exceeding vehicle volume limitations per 40 CFR 1037.150(t)(1) and not complying with 1037.635.

Instructions: E-mail the completed and signed form to PB.GHG.Sales.Plan.Management@PACCAR.com. Any questions may be sent to the same address.

Express Carriers Corporation

3301 Wireton Road

Suite 100S

Blue Island, IL 60406

708-489-5540

March 27th, 2018

Mr. Stephen Healy,

This notification letter is to inform you that Express Carriers Corporation is eligible to complete gliders in 2018.

We as a company comply with the small business criteria with less than 1,500 employees.

We meet both criteria's 40CFR 1037.150 and 13CFR 121.201

The company is solely owned by Tomas Gintila.

The number of employees

2015 – 5

2016 – 7

2017 – 9

The number of gliders

2010 - [REDACTED]

2011 - [REDACTED]

2012 - [REDACTED]

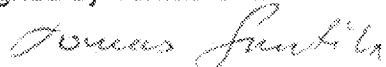

2013 - [REDACTED]

2014 - [REDACTED]

Reviewed and Accepted
Date 3/28/18 EPA Rep 

[REDACTED] sold to an outside party.

Signed by Tomas Gintila

Subject: RE: Small Business exemption for Glider kit

Bob,
Can you please add your company name address and contact information to the first page of your submission. The first page is your notification to EPA that you intend to use the small business regulatory provisions and how you qualify. The other pages are documentation for PACCAR. Also can you please add the number of employees for the three previous years.

One other question. Have you sold any gliders?

Thank you,

Stephen Healy

That's the problem. I don't know who is notifying me about their small business status. This information should be for the company that wishes to use the small business provisions of the regulations. If you are acting for a customer then your customer needs to supply the required information and sign the letter.

So you should have your customer add the information I requested to letter and also indicate if they have sold any gliders that they have built. They should also put zeros in the table for number of gliders built in years they did not build gliders.

Thanks

Subject: Glider - Small Business Notification

Eric,

The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that their company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees - this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that their company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations - assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that the company has built each year 2010 through 2014.
- Signed by the owner(s).

They should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to them. They can use the wording I used above (just substitute in the actual company name) if that helps.

For your reference here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions - this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

Attached is a corrected Request for Small Business Exemption as a Glider Vehicle Assembler for Endrizzi Diesel LLC. The model year should have been 2019. I have initialed the correction.

We have conducted multiple webinars and provided written training materials for the dealers and assemblers, and have stressed the calendar year / model year distinction every time. Additionally, any time I am contacted during the process, I remind them. I do apologize. It creates extra work for me, and for my counterpart at Kenworth as well.

Subject: RE: Glider Kits

Eddie,

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees - this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations - assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions - this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

Sent: 2/27/2018 7:38:58 PM
To: 'Eddie Herring' [Eherring@herringmotor.com]
Subject: RE: JE Herring Motor Co Glider Kit

Eddie,

I have one question, did JE Herring Motor Company sell a glider in 2014? To qualify for the EPA small business glider exemption the small business must have built gliders in the 2010 through 2014 timeframe and sold at least one glider in 2014. Here is an excerpt from the regulations that details these requirements:

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

(ii) In a given calendar year, you may produce up to 300 exempt vehicles under this section, or up to the highest annual production volume you identify in paragraph (t)(1) of this section, whichever is less.

Please let me know if you have any questions.

Deb,
Sorry to bother you again, but I received this other small business notification letter yesterday that has raised a red flag. The small business, East Texas Truck Center, claims to have built [REDACTED] gliders in 2014 with a total staff of 17. They appear to offer repair services, truck sales and parts. Their glider sales all appear to be Kenworth and Peterbilt. The volume of gliders built would put them in PACCAR's top ten glider builders. Is this possible?

Thanks for your help.

Subject: RE: JE Herring Motor Co Glider Kit

Eddie,

I have one question, did JE Herring Motor Company sell a glider in 2014? To qualify for the EPA small business glider exemption the small business must have built gliders in the 2010 through 2014 timeframe and sold at least one glider in 2014. Here is an excerpt from the regulations that details these requirements:

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

(ii) In a given calendar year, you may produce up to 300 exempt vehicles under this section, or up to the highest annual production volume you identify in paragraph (t)(1) of this section, whichever is less.

Please let me know if you have any questions.

Thank you,

Subject: RE: Small Business Exemption as a Glider Vehicle Assembler

Steve,

You're right in questioning this one. I did some digging and don't find anything close to this name in 2014, or a customer this size that I don't already know about. It is possible they worked strictly as a third party assembler and don't show up in our history before we started tracking assemblers. Or they could have operated under another name. I don't see a likely candidate this size. But it's two partners with two locations, so perhaps they merged operations. So it's technically possible.

I haven't heard from any Peterbilt dealers planning to use this company, and neither has my counterpart at Kenworth.

If I were you, I'd ask for some documentation - a list of VINs, or a breakdown of the [REDACTED] by OEM.

Subject: FW: Small Business Exemption as a Glider Vehicle Assembler

Deb,
 Sorry to bother you again, but I received this other small business notification letter yesterday that has raised a red flag. The small business, East Texas Truck Center, claims to have built [REDACTED] gliders in 2014 with a total staff of 17. They appear to offer repair services, truck sales and parts. Their glider sales all appear to be Kenworth and Peterbilt. The volume of gliders built would put them in PACCAR's top ten glider builders. Is this possible?

Thanks for your help.

Good Morning,

I am back from the holidays and have the vins and makes as requested. Thank you for your time and if you have any questions please let me know. Just as a reply to the small company.. Software giant Microsoft was started in **1975**, in the garage of a young college drop-out by the name Bill Gates. In a tiny Albuquerque garage, with room for only two people, Gates and his friend, Paul Allen, started a firm, which was originally called "Micro-Soft". Facebook was created in a dorm. We eclipsed 30 million in sales last year and started in a one bay shop behind the house. Mr. Healy its not always about the size of the company that can accomplish large task, goals or dreams. Its about the hearts and minds of the team reaching for these goals. For these dreams. Hope you have had a blessed Easter, enjoy your Monday and Semper Fidelis! :)

"Keep on asking and you will receive what you ask for. Keep on seeking and you will find. Keep on knocking, and the door will be opened to you."

Steve,

These are all MY2015 Paccar gliders, though VIN [REDACTED] is listed twice. In our records, the customer is either D&B Trucks and Equipment or Martin's Peterbilt, our dealer that works with D&B. I see that D&B does have a location in east Texas. So it appears that ETTC was doing subcontract work for D&B. We've seen other relationships like this. I think this sort of thing is why we did not realize just how many companies have been assembling glider kits.

Subject: RE: Small Business Exemption as a Glider Vehicle Assembler

Good Morning,

I am back from the holidays and have the vins and makes as requested. Thank you for your time and if you have any questions please let me know. Just as a reply to the small company.. Software giant Microsoft was started in **1975**, in the garage of a young college drop-out by the name Bill Gates. In a tiny Albuquerque garage, with room for only two people, Gates and his friend, Paul Allen, started a firm, which was originally called "Micro-Soft". Facebook was created in a dorm. We eclipsed 30 million in sales last year and started in a one bay shop behind the house. Mr. Healy its not always about the size of the company that can accomplish large task, goals or dreams. Its about the hearts and minds of the team reaching for these goals. For these dreams. Hope you have had a blessed Easter, enjoy your Monday and Semper Fidelis! :)

"Keep on asking and you will receive what you ask for. Keep on seeking and you will find. Keep on knocking, and the door will be opened to you."

Steve,

Interesting. All of this list of kits were for customer R.E. Monson Inc.:
<http://www.monsonandsons.com/employment.shtml> . On this page, it looks like they replaced much of their fleet in 2014 and 2015. They have the same address as CCB, LLC. IF they are separate legal entities, it's feasible that CCB "sold" their assembly services to Monson.

I admit I know little about the actual assembly process. For 2 people, [REDACTED] in a year seems like a lot. But they could have had many more employees in 2014, and would have had no overhead. Monson only ordered a few kits in 2016, and none since then.

I think this is another one that you'd have to audit to disprove.

Subject: RE: small business exemption paperwork

The attached letter indicates that Jason Harmon Trucking did [REDACTED] in the timeframe of 2010 through 2014. The EPA regulations for the small business glider builder exemption require that they have previously built gliders. Please check the records for this company to see if they have previously built gliders and sold at least one. Here is an excerpt from the regulations stating these requirements:

§1037.150 Interim provisions.

(t) Glider kits and glider vehicles. (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Subject: RE: glider kit certification

Dave,

For the purposes of the EPA regulation your company is considered to be a manufacturer because you complete the assembly of the truck. So NAICS Code 336120 is applicable and has a size threshold of 1500 employees.

Here is the information I send to companies interested in the small business glider builder requirements:

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions – this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

Subject: glider kit certification

Mr. Healy,

My name is Dave Francis and I own a heavy duty truck body/paint shop in ST.Louis, MO, we also assemble glider kits for customers. I was told we need to register with the EPA in order for us to continue such assemblies. My questions are - In reading the regulation 13 CFR121.201 the NAICS Code 336120 for a small business - this refers to a manufacturer, we do not manufacture; we order the kit for our customer, the customer supplies the parts and we assemble everything and have it inspected by the state, customer then titles the kit for their business. Therefore which NAICS Code would be correct for us? In order for us to continue assembling glider kits exactly what do we need to do and what information do you need?

Thank you,
Dave Francis

Glider Kit Small Business Notification

Reviewed and Accepted
Date 3/14/18 EPA Rep 

Mr. Stephen Healy:

I David A. Francis as president/co-owner of D&D Wreck Rebuilders Inc. do state that my company does meet the small business criteria listed in 40 CFR 1037.150 ©, NAICS Code 336120 and the small business criteria specified in 13 CFR 121.201.

I also state that D&D Wreck Rebuilders Inc. is solely owned by Jeanine M. Francis (51%) and David A. Francis (49%), and that we are not affiliated with any other company(s) or state.

We have maintained a consistent number of employees at 24 for each of the years 2017, 2016, and 2015.

We have built gliders for each year of [REDACTED]
[REDACTED] with all being sold to companies.

I look forward to your approval of our letter, so we may continue working with the glider kit program.

Thank you,

David A. Francis
President* * * * *
Have A Nice Day!

Subject: Certification to build Freightliner Glider

Stephen,

Attached is a notification letter with our intention of building a 2019 Freightliner Columbia glider for one of our customers, Blue Water Trucking. Please return with the "Reviewed and Accepted" stamp with date and an EPA representative's signature. Please don't hesitate to contact me with any questions.

Thank you,

Date 3/2/18 EPA Rep 

Wolverine Freightliner Eastside Inc. conforms to the small business criteria listed in 40 CFR 1037.150(c) and the small business criteria listed in 13 CFR 121.201.

Our business is solely owned by Lynn Terry. We have 3 locations: Wolverine Truck Sales in Dearborn, MI, Wolverine Freightliner Eastside in Mt. Clemens, MI, and Wolverine Freightliner Westside in Ypsilanti, MI. All of the locations are solely owned by Ms. Terry and we have no affiliations with any other companies. However, we are unofficially doing business as Wolverine Truck Group to encompass all three dealerships.

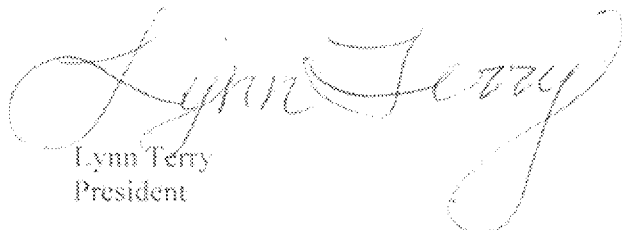

Below is the breakdown of our employees for the last 3 years.

<u>Company</u>	<u>2015</u>	<u>2016</u>	<u>2017</u>
Wolverine Freightliner Eastside	43	50	42
Wolverine Freightliner Westside	59	60	62
Wolverine Truck Sales	50	50	55

During the period of 2010 – 2014, we built [REDACTED] Conway Freight.

If you have any questions, please see contact information below.

Stephen;

Costello Diesel Service out of Fairbank, IA sent an EPA letter over to you for approval on Tuesday this week. Have you had a chance to process and return this back to them? Please advise.

Bill,

I did some additional searching on my email files and found I responded to their email that had their notification attached. Their notification letter did not have their company name and contact information. So I responded to their email with a request for them to add their company name and contact information to their letter.
